

# Biosolids Management Services

Metro JPA Technical Advisory Committee

May 20, 2020

Public Utilities Department

## Biosolids Management Services

### BACKGROUND

- Long term agreement with Republic/San Diego Landfill Systems Inc.
- Current amendment expired in March 2020
- RFP to solicit proposals sent out in Fall 2019
- Goals – secure new agreement and diversify management options
- Facility produces about 330 tons per day

## Metropolitan Biosolids Center (MBC)

# Public Utilities

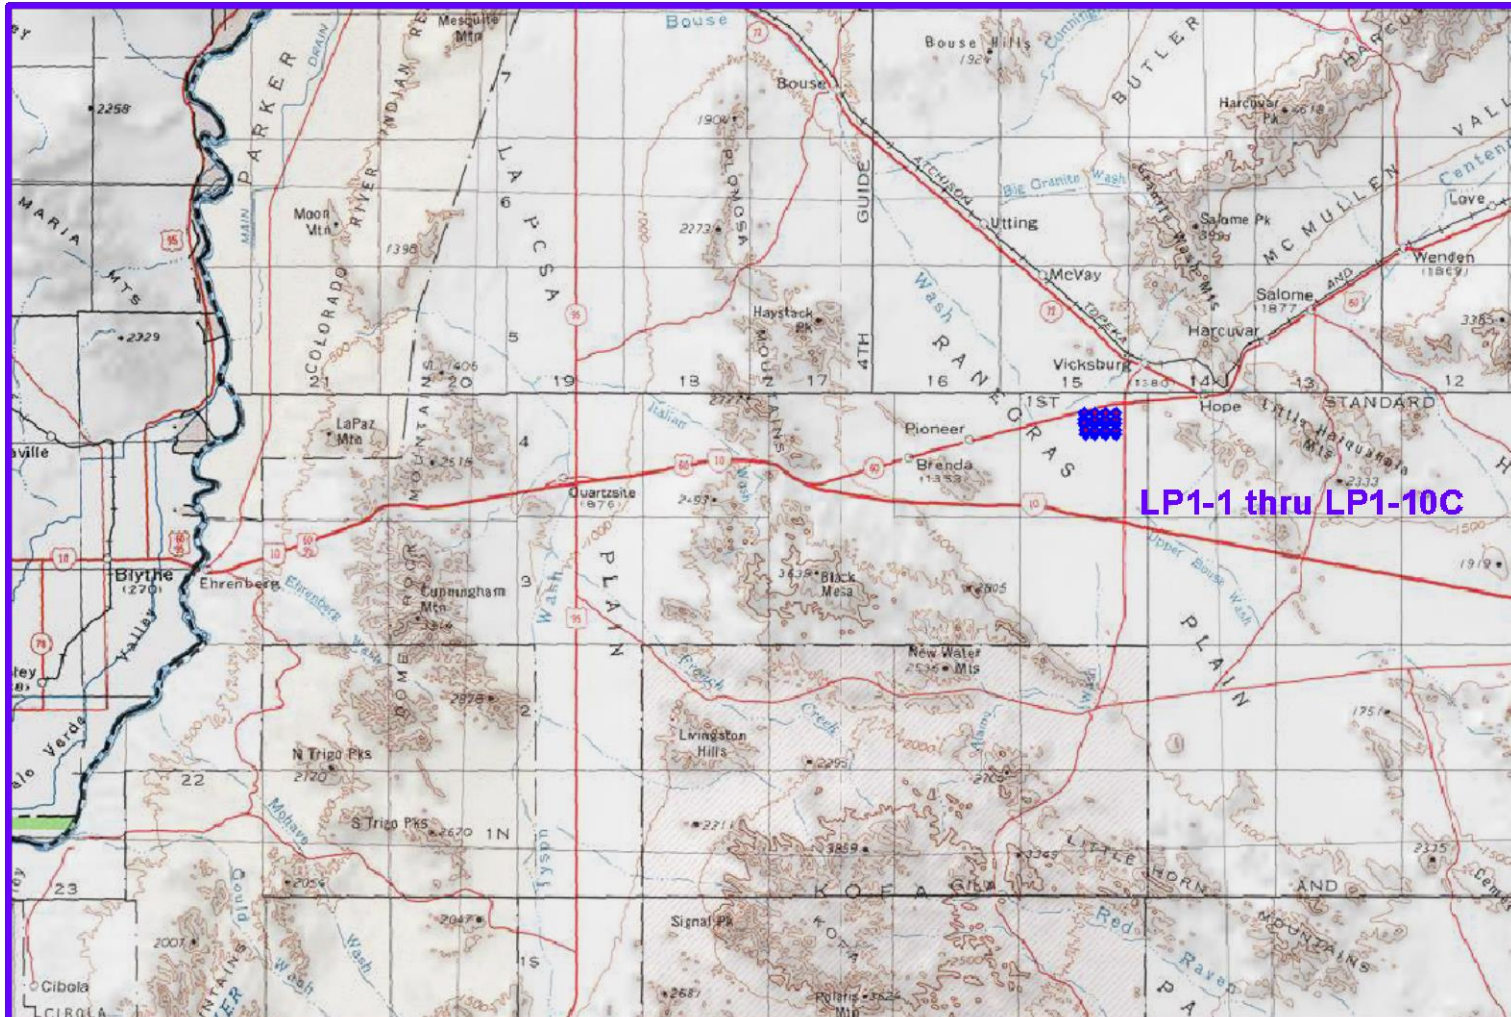

## Arizona land application sites

# Biosolids Management Services

## RFP Results

- Three submittals – Award to San Diego Landfill Systems Inc.
- Present cost (average) – \$52.01 per wet ton
- SDLS pricing (average) in RFP submittal - \$58.00 per wet ton
- Contract Term – 5 years with potential for (5) one year extensions
- Diversity – Land application and lime stabilization
- Pricing is fixed for first year. SDLS can request an annual pricing adjustment based on Consumer Price Index
- Estimated total cost impact over 10 year period - \$106M
