Chair Peasley stated that there had been trouble at times achieving a quorum due to other commitments of the members and suggested this be solved by appointing an alternate. He then stated that Vice Chair Jones had approached him and requested consideration for said position.

9. METRO TAC UPDATE/REPORT

MetroTAC Chair Humora noted that the Work Plan was attached to the agenda showing the items MetroTAC has in the works. He stated that Lori had sent an e-mail out to everyone with the new website link and links to the New Commissioner Manual which will be the homework assignment for the Commissioners between now and the next meeting. Work is underway to transition all prior meeting agendas and minutes and information onto the new website and he encouraged the Commission to check out the website, become familiar with it and provide any feedback. The TAC are also working on the audits for FY 11, 12 and several other years. They are trying to finalize them with Karyn Keese of Atkins Global and City of San Diego Staff. The plan currently is to bring them to the Finance Committee on May 27th and then to the full JPA at the meeting scheduled for June 4th. Regarding June 4th, a tentative agenda is being prepared for the JPA Special Meeting/Orientation/Strategic Planning/Tour. He then thanked City of San Diego and their employees, John Gavares for agreeing to assist with the Strategic Planning, Edgar Patino for doing the van driving skills. He noted that Commissioners needed to meet at MOC II at 8:30; the vans would be leaving promptly at 9:00 and arriving at Pt. Loma around 9:45. Continental Breakfast will be served. The Special Meeting will start at 10:00 following with the Orientation for about an hour, a working lunch will be held, then the condensed version of Strategic Planning to update the current one to make sure it is consistent with what is being worked on now such as the Pure Water Program and Pt. Loma Permit and ensure everyone is moving in the proper direction that the Commission wants concluding with a tour of the plant. Estimated return time is 3:00 p.m.

10. POINT LOMA PERMIT RENEWAL

MetroTAC Chair Humora stated that the dashboard was attached for review by the Commission and provided a quick update on the cost allocation meeting was held again and continues to

move forward. It is hoped to bring some cost concepts to the MetroTAC potentially as early as this month. A stakeholders meeting with the City San Diego, environmental groups and JPA representatives is scheduled for May 15, 2015 and they are looking to get updates and keep the process moving particularly for the secondary equivalency and legislative aspects as they progress. Commissioner Spriggs inquired and TAC Chair Humora stated that the definition of secondary equivalency had been agreed upon by the City of San Diego, the JPA and environmental stakeholders. This was the first step achieved last fall. They are now working on the legislative aspect of this. It has been agreed that we would like to avoid having to ask for modified permits for the Pt. Loma Wastewater Treatment Plant every five years. In order to do that, they are looking for either a change in the law or some other interpretation or recodification of portions of the Clean Water Act in order that Pt. Loma does not have to keep applying for a modified permit. They are now conversing with EPA Headquarters in Washington DC, and more specifically EPA Region 9 staff to come up with how to potentially move this concept forward so to not have to worry about being exposed every five years to input and pressures of interpretation. They have been requested to first try to an administrative fix, looking through codes and looking for separate interpretations. If that does not work the second level would be to look at an actual law change, changing the Clean Water Act itself. This is the only concern they are dealing with.

City of San Diego Deputy City Attorney Tom Zeleny made a brief verbal and Power Point presentation on the Cooperative Agreement in Support of Pure Water San Diego between the City of San Diego, San Diego Coastkeeper, San Diego County Surfrider, CERT and the San Diego Audubon Society. He noted that this was the third agreement done with the environmental stakeholders starting back in 2005 when one was done in part to settle litigation as to how to interpret the Clean Water Act. The agreement was done as part of settling the dispute in return for dismissal of legal actions. The City evaluated and improved the Ocean Monitoring Program which was adopted and implemented, different treatment technologies at Pt. Loma looking at alternative ways to go to secondary treatment. They also did an evaluation of expanding the water reclamation program which was a precursor to the current recycled water study that talked about IPR and DPR etc. Then in 2009 a second agreement was done with Surfrider and Coastkeeper to avoid litigation in conjunction with the next application waiver that was going through back then. One of the things promised was the Recycled Water Study that talked about IPR, DPR and how to offload Pt. Loma, which was presented to the San Diego City Council in 2012. As promised to the Coastal Commission as a condition of approving the Waiver, the City of San Diego went back and presented this to them in 2012. The third agreement is the one presented; the Coastal Environmental Rights Foundation and San Diego Audubon Society have been added. The purpose of the agreement is to pursue an amendment to the Clean Water Act for Pure Water San Diego, not just to produce 83 million gallons per day of potable water by 2035, Pure Water San Diego is that PLUS Secondary Equivalency at Pt. Loma, that is to avoid the cost of going to Secondary at Pt. Loma and to divert those funds and resources to developing a new potable water supply – those two pieces together that form Pure Water San Diego. The agreement is to gain support of other environmental groups or at least make sure they do not object to our proposal via the groups the agreement is with. It is understood that they have gained the support of the National Resources Defense Council who was one of the parties that objected to our permit last time around. They apparently like the model being used and hope it goes forward. The intent of the agreement with the environmental agencies is to avoid litigation over Pt. Loma and one of the things promised in the agreement is that they will not challenge the City's waiver application provided it contains certain elements which it does. The agreement also establishes milestones (goals) and deadlines for implementing the Pure Water San Diego Program. Lastly, the purpose is to maintain the current Ocean Monitoring Program. The program EIR is what starts everything and that is to be done and fully certified by January 31, 2018. He then reviewed the deadlines listed in the agreement. He then reviewed the proposed legislation OPRA II and the other conditions such as funding needed in order to be successful as well as the site and approval to use the potable water being produced. He then reviewed the early termination clauses which were included. They are currently looking at whether they can change the Code of Federal Regulations instead of the Clean Water Act and have it done at a regulatory level; these discussions are being held with EPA and would require an amendment to the agreement. The balance of the agreement calls for meetings, which have been happening since the early 2000's. Amendment to the Legislation was preferred.

11. IROC UPDATE

Chair Peasley stated that he had attended the meeting on behalf of Commissioner Spriggs and San Diego City staff provided updates on the drought issues, water main breaks and sanitary sewer spills which have greatly decreased, a CIP update and the goals being met.

12. FINANCE COMMITTEE

Chair Peasley stated the committee had met and Commissioner Mullin had been appointed as Chair. The three items presented at this meeting had been heard and approved to move forward, JPA Audit Review and JPA Mid-Year Budget Review, and discussion was held on the need for appointment of an alternate.

13. REPORT OF GENERAL COUNSEL

Assistant General Counsel Martin stated that Paula was enjoying her honeymoon in Italy and will be returning for the next meeting.

14. PROPOSED AGENDA ITEMS FOR THE NEXT METRO COMMISSION/METRO WASTEWATER JPA JUNE 4, 2015

Chair Peasley reminded everyone to be present June 4th at MOC II at 8:30 a.m. to board the vans which will leave promptly at 9:00 a.m. for Pt. Loma. He requested everyone advise Lori on their attendance and if they needed to drive themselves.

**INDEPENDENT AUDITOR'S REPORT ON THE SCHEDULE OF ALLOCATION
FOR BILLING TO METROPOLITAN WASTEWATER UTILITY**

To the Honorable Mayor and City Council
of the City of San Diego
San Diego, California

We have audited the accompanying Schedule of Allocation for Billing to Metropolitan Wastewater Utility (the Schedule) of the City of San Diego Public Utilities Department (PUD), an enterprise fund of the City of San Diego, California (the City) for the fiscal year ended June 30, 2011. The Schedule is the responsibility of the PUD's management. Our responsibility is to express an opinion on the Schedule based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the Schedule is free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the PUD's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the Schedule, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall Schedule presentation. We believe that our audit provides a reasonable basis for our opinion.

As described in Note 3, the accompanying Schedule referred to above was prepared for the purpose of complying with, and in conformity with, the accounting practices prescribed by the Regional Wastewater Disposal Agreement between the City and the Participating Agencies in the Metropolitan Wastewater System dated May 18, 1998 and amended on May 15, 2000 and June 3, 2010. Accordingly, the Schedule is not intended to present the financial position or the changes in the financial position of the PUD in conformity with accounting principles generally accepted in the United States of America.

In our opinion, the Schedule referred to above presents fairly, in all material respects, the allocation for billing to Metropolitan Wastewater Utility of the PUD for the fiscal year ended June 30, 2011 on the basis of accounting described in Note 3.

In accordance with *Government Auditing Standards*, we have also issued our report dated March 17, 2015, on our consideration of the PUD's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

This report is intended solely for the information and use of the City Council, the Mayor, the City, the PUD's management, and the Metro Commission/Metro Wastewater JPA Board and is not intended to be and should not be used by anyone other than these specified parties.

CITY OF SAN DIEGO PUBLIC UTILITIES DEPARTMENT

Notes to the Schedule of Allocation for Billing to Metropolitan Wastewater Utility For the Fiscal Year Ended June 30, 2011

Note 1 – General

The City of San Diego Public Utilities Department (the PUD) operates and maintains the Metropolitan Wastewater System (the Metropolitan System) and the Municipal Wastewater Collection System (the Municipal System). The Participating Agencies and the City of San Diego (the City) have entered into the Regional Wastewater Disposal Agreement dated May 18, 1998 and amended on May 15, 2000 and June 3, 2010, for their respective share of usage and upkeep of the Metropolitan Wastewater Utility. The accompanying Schedule of Allocation for Billing to Metropolitan Wastewater Utility (the Schedule), represents the allocation of expenses for billing related to the Metropolitan Wastewater Utility of the Participating Agencies.

The Metropolitan System and Municipal System are accounted for and reported in the Sewer Utility Enterprise Fund in the City's Comprehensive Annual Financial Report.

Note 2 – Participating Agencies

The Participating Agencies consist of the following municipalities and districts:

- City of Chula Vista
- City of Coronado
- City of Del Mar
- East Otay Mesa Sewer Maintenance District
- City of El Cajon
- City of Imperial Beach
- City of La Mesa
- Lakeside Sanitation District
- Lemon Grove Sanitation District
- City of National City
- Otay Water District
- Padre Dam Municipal Water District
- City of Poway
- Spring Valley Sanitation District
- Winter Gardens Sewer Maintenance District
- Alpine Sanitation District

The San Diego County Sanitation District was formed on July 1, 2011. The following former districts were reorganized and combined to form the San Diego County Sanitation District:

- East Otay Mesa Sewer Maintenance District
- Lakeside Sanitation District
- Alpine Sanitation District
- Winter Gardens Sewer Maintenance District
- Spring Valley Sanitation District

The reorganization does not affect the allocation of expenses for billing related to the Metropolitan System.

Note 3 – Summary of Significant Accounting Policies

Basis of Presentation

The Schedule has been prepared for the purpose of complying with the Regional Wastewater Disposal Agreement between the City and the Participating Agencies as discussed in Note 1 above, and is presented on a modified cash basis of accounting. As a result, the Schedule is not intended to be a presentation of the financial position or the changes in the financial position of the City or the PUD in conformity with generally accepted accounting principles. The more significant differences are:

1. Purchases of capital assets are presented as capital improvement expenses.

CITY OF SAN DIEGO PUBLIC UTILITIES DEPARTMENT

Notes to the Schedule of Allocation for Billing to Metropolitan Wastewater Utility (Continued) For the Fiscal Year Ended June 30, 2011

2. Depreciation expense on capital assets is not reported in the Schedule.
3. Payments of principal and interest related to long-term debt are reported as debt service allocation.
4. Exclusion in the Schedule for unbudgeted amounts related to accrued expenses for compensated absences, liability claims, capitalized interest, pollution remediation, postemployment healthcare benefits, pension benefit costs, and landfill closure and postclosure care costs.

The preparation of the Schedule requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Note 4 – Capital Improvement Expense

Construction costs incurred during the fiscal year to maintain and improve the Metropolitan Wastewater Utility and equipment purchases used in the maintenance of the Metropolitan Wastewater Utility are included in capital improvement expense.

Metropolitan Wastewater Utility capital improvement income credits include, if any, contributions-in-aid-of-construction received from Federal and State granting agencies and reimbursements from bond proceeds.

Note 5 – Debt Service Allocation

Debt service allocation represents that portion of the principal and interest payments relating to the Senior Sewer Revenue Bonds Series 2009A, the Senior Sewer Revenue Refunding Bonds Series 2009B and 2010A, and the outstanding State Revolving Fund (SRF) loans from the State of California.

Note 6 – Metropolitan System Income Credits

Metropolitan System income credits are revenues earned by the Metropolitan System for costs incurred during the current or previous fiscal years. The PUD has agreed to share the income credits from the South Bay Water Reclamation Facility in accordance with the 1998 Regional Wastewater Disposal Agreement. Currently, there is an unresolved issue between the Participating Agencies and the City regarding the calculation of the reclaimed water revenue. The Wastewater Utility Fund has not received any proceeds from reclaimed water sales pending transfer from the Water Utility Fund.

Note 7 – Total Allocation for Billing Purposes

Costs to be billed to Participating Agencies include all individual construction projects costs and operation and maintenance expenses attributable to the Metropolitan System. Costs are apportioned back to the Participating Agencies based on their percentage of each of the totals of flow, suspended solids and chemical oxygen demand (COD). Each Participating Agency and the City are sampled quarterly, with plants sampled daily. The percentages are determined from cumulative samples and monitored flow.

For construction projects, percentages were allocated to flow, suspended solids and COD based on each of the project's design and function. The percentages are weighted by total project costs and combined to determine the final three derived percentages. Total annual costs are then allocated based on the three derived percentages and the measured flow, suspended solids and COD of each Participating Agency.

CITY OF SAN DIEGO PUBLIC UTILITIES DEPARTMENT

Notes to the Schedule of Allocation for Billing to Metropolitan Wastewater Utility (Continued)

For the Fiscal Year Ended June 30, 2011

Operation and maintenance (O&M) costs as a percentage of flow, suspended solids and COD are evaluated based on four cost categories: pump stations, plant operations, technical services and cogeneration. These percentages are weighted by the annual O&M costs for each category, and combined to determine a derived percentage for administrative costs. All O&M costs are then allocated based on the measured flow, suspended solids and COD of each Participating Agency.

Note 8 – Pension Benefit Costs

The rates supporting expenses related to the employer share of pension costs are actuarially determined by the San Diego City Employees' Retirement System's actuary. Employer contribution rates are set with a 2 year time-lag (i.e., rates effective in fiscal year 2011 were calculated in the fiscal year 2009 actuarial valuation). The City's Sewer Utility Enterprise Fund fully paid its pension rates as determined by the actuary in its actuarial report prepared in fiscal year 2009 for fiscal year 2011.

Further information regarding the City's pension plan, benefits costs and funded status as of June 30, 2011 can be found in the City's Comprehensive Annual Financial Report.

Note 9 – Postemployment Healthcare Benefits

Postemployment healthcare benefits costs are measured and accrued based upon annual actuarial valuations similar to current practice with pension plans. The actuarial valuations provide information on the annual required contributions (ARC) to fund the plan. The Schedule only includes postemployment healthcare benefits paid during the fiscal year ended June 30, 2011.

Further information regarding the City's Postemployment Healthcare Benefits as of June 30, 2011 can be found in the City's Comprehensive Annual Financial Report.

Note 10 – Administrative Protocol

In May 2010, the City of San Diego and all Participating Agencies signatory to the Regional Wastewater Disposal Agreement established an Administrative Protocol (Protocol) which was effective beginning in fiscal year 2010. The Protocol established a requirement that the Participating Agencies maintain a 1.2 debt service coverage ratio on parity debt, fund a 45 day operating reserve, and earn interest on the operating and unrestricted reserve accounts. All interest earned during fiscal year 2011 was credited to the operating reserve, which ended the fiscal year with a 45-day reserve.

Note 11 – Subsequent Events

Padre Dam Overbilling Sludge Issue

In November 2010, Padre Dam Municipal Water District (Padre Dam) submitted a letter to the City regarding possible overcharge. The City investigated the issue and in April 2011, confirmed that Padre Dam was overcharged. Thereafter, the overcharge has been discussed by all of the Participating Agency members of the Metro JPA Technical Advisory Committee meetings. Padre Dam and the City have issued a proposal for consideration by the member agencies, which was accepted by the City and Padre Dam in December 2014. Currently, an administrative protocol is being drafted.

North City Wastewater Treatment Plant Billing Issue

In February 2013, the City discovered a billing issue associated with the North City Water Reclamation Plant wherein the City may have omitted flow and under billed itself. The City actively investigated this issue to determine the financial impact to all parties involved. As of December 2014, the billing issue has been tentatively resolved pending the drafting of an administrative protocol, coupled with the Padre Dam overbilling issue, to ensure a resolution to the satisfaction of all parties.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN
AUDIT OF THE SCHEDULE OF ALLOCATION FOR BILLING TO
METROPOLITAN WASTEWATER UTILITY PERFORMED IN
ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

To the Honorable Mayor and City Council
of the City of San Diego
San Diego, California

We have audited the accompanying Schedule of Allocation for Billing to Metropolitan Wastewater Utility (the Schedule) of the City of San Diego Public Utilities Department (PUD), an enterprise fund of the City of San Diego, California (the City), for the fiscal year ended June 30, 2011, and have issued our report thereon dated March 17, 2015. Our report contained an explanatory paragraph indicating that the Schedule was prepared for the purpose of complying with, and in conformity with, the accounting practices prescribed by the Regional Wastewater Disposal Agreement between the City of San Diego and the Participating Agencies in the Metropolitan Wastewater System dated May 18, 1998 and amended on May 15, 2000 and June 3, 2010. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

Management of the PUD are responsible for establishing and maintaining effective internal control over financial reporting. In planning and performing our audit, we considered the PUD's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the Schedule, but not for the purpose of expressing an opinion on the effectiveness of the PUD's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the PUD's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the Schedule will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether PUD's Schedule is free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of Schedule amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters that we reported to management of the PUD, in a separate letter dated March 17, 2015.

This report is intended solely for the information and use of the City Council, the Mayor, the City, the PUD's management, and the Metro Commission/Metro Wastewater JPA Board and is not intended to be and should not be used by anyone other than these specified parties.

The policy limits do not act as a limitation upon the amount of indemnification to be provided by Consultant.

14. California Labor Code Requirements.

Consultant is aware of the requirements of California Labor Code Sections 1720 et seq. and 1770 et seq., which require the payment of prevailing wage rates and the performance of other requirements on certain "public works" and "maintenance" projects. If the services are being performed as part of an applicable "public works" or "maintenance" project, as defined by the Prevailing Wage Laws, and if the total compensation is \$1,000 or more, Consultant agrees to fully comply with such Prevailing Wage Laws, if applicable. Consultant shall defend, indemnify and hold Metro JPA, its member agencies, elected officials, officers, employees and agents free and harmless from any claims, liabilities, costs, penalties or interest arising out of any failure or alleged failure to comply with the Prevailing Wage Laws. This Agreement shall be interpreted in accordance with the laws of the State of California. If any action is brought to interpret or enforce any term of this agreement, the action shall be brought in a state or federal court situated in the County of San Diego, State of

California. In the event of any such litigation between the Parties, the prevailing party shall be entitled to recover all reasonable costs incurred, including reasonable attorney's fees, as determined by the court.

16. Termination or Abandonment.

a. Metro JPA has the right to terminate or abandon any portion or all of the work under this Agreement by giving ten (10) calendar days' written notice to Consultant. In such event, Metro JPA shall be immediately given title and possession to all original field notes, drawings and specifications, written reports and other documents produced or developed for that portion of the work completed and/or being abandoned. Metro JPA shall pay Consultant the reasonable value of services rendered for any portion of the work completed prior to termination. If said termination occurs prior to completion of any task for which a payment request has not been received, the charge for services performed during such task shall be the reasonable value of such services, based on an amount mutually agreed to by Metro JPA and Consultant of the portion of such task completed but not paid prior to said termination. Metro JPA shall not be liable for any costs other than the charges or portions thereof which are specified herein. Consultant shall not be entitled to payment for unperformed services, and shall not be entitled to damages or compensation for termination of work.

Scope of Services and Budget

SCOPE OF SERVICES

METRO TAC/COMMISSION/JPA

AS-NEEDED FINANCIAL SERVICES

The purpose of the As-Needed Consulting Contract for the Metro Wastewater JPA/Commission is to provide technical and financial support to the participating agencies (PAs) in meeting their objectives of fair rates, equitable cost sharing, and program validation. The intention of the As-Needed Contract is to provide review and oversight of the San Diego Metropolitan Sewer System (Metro System) Program with a minimum of duplication by the PAs. By combining the efforts of the PAs into a central focal point, our goal is to assist in increasing the responsiveness of the group to key issues of concern, ensure coverage at key meetings, centralize the data collection, minimize duplication of efforts by the PAs, and reduce the costs of both Metro TAC/Commission/JPA efforts, as well as the overall costs of the Metro Program. Karyn Keese of The Keze Group, LLC (TKG) has provided these services to the Metro/TAC/Commission/JPA since 1998 and has supported numerous dealings with financial and engineering issues that affect the PAs.

I. Scope of Services

The effort by The Keze Group, LLC (TKG) will be divided into the following tasks:

A. Routine Meetings

The routine meetings will include the following tasks:

1. Attendance at the Metro TAC meetings, preparation of minutes and agendas.
2. Attendance and preparation of agendas for the Metro Commission/JPA meetings.
3. Prepare agendas, minutes, and technical support to the Metro Finance Committee.

B. Routine Audit Review – Public Utilities Department (PUD), Wastewater Operations Branch Exhibit E Audit Review – FYEs 2014 and 2015

1. Review and negotiate the auditors Scope of Work
2. Attend Entrance and Exit Conferences with the Auditors
3. Select audit sample
4. Attend Interim Bi-Weekly work meetings with the Auditors (maximum of 5 per audit)
5. Review the Draft and Final Audit numbers and test results

6. Review all audit samples for contract compliance and accounting accuracy
7. Review the annual general services cost allocation
8. Review output for any special projects (In the past this has included the reconciliation of the Shames and other municipal lawsuits, and the Clean Water Program management contract to insure that only Metro costs have/had been charged to the PAs)
9. Present the results to the Metro Finance Committee, Metro TAC, and Metro Wastewater JPA / Commission
10. Review final closeout of 2009 to 2012 open audits to insure Padre Dam and North City adjustments are correctly applied to each PA
11. Monitor closeout process to insure timely payment of refunds (if any) and the accuracy of any additional billings' (if any) to PAs
12. Monitor Pure Water Program cost allocations to insure Metro is only paying its fair share of the Program.

C. Routine Review of MWWD Budget – FYE 2016 and 2017

1. Line item review of the proposed CIP projects to verify that they are a part of the Wastewater Agreement. Provide a preliminary review of the O&M costs to identify areas of concern for the PAs
2. Identify budget items that show major deviation from previous years, and discuss these deviations with the City
3. Attend meetings with the City of San Diego Public Utilities staff to identify the nature and magnitude of the budget items
4. Provide updates on budget issues to the Metro TAC, the Finance Committee, and the Metro Wastewater JPA/Commission meetings

D. FYE 2015/16 Water and Wastewater Rate Cases – During FYE 2014 and 2015 outside consultants have been preparing the PUD's water and wastewater rate cases. Preliminary results on the first of three steps in the rate case process (revenue requirement) will be released in early 2015. TKG will work with the IROC Finance Committee to provide in-depth review of the Rate Cases during this fiscal year to insure that Metro Commission/JPA interests are considered and included especially when it comes to the funding of the Pure Water Program. It is anticipated by PUD staff that the rate case will be completed in FYE 2015/16.

E. FYE 2015/16 Recycled Water Financial Projects

1. Continued Support and Resolution of Recycled Water Contractual Issues – During FYE 2011 the City’s Public Utilities Director recognized the PAs right to the revenues from the sales of recycled water at the South Bay plant. The past sales of recycled water will be included in the FYE 2014 and/or 2015 audits as an income credit and revenue will be returned to the participating agencies. However several housekeeping issues remain to be resolved such as the completion of the repayment schedule for the North City Optimized System Debt and continued discussions over allocation of the capacity reservation leases paid by Otay Water District and Olivenhain Municipal Water District and will be continued this year. TKG will support the effort in resolving these issues in FYE 2015/16. (Note: This is ongoing from FYE 2013 but had been tabled due to staff resources associated with the Pure Water Program).
2. Review of Recycled Water Pricing Study – In December 2009 PUD asked its consultant to address the difference between wholesale and retail customers and develop appropriate recycled water rates. PUD’s original proposed unitary rate structure is of major concern to the PAs. A second draft of the pricing study was received but was not considered acceptable by the PAs. PUD has since retained another consultant and the draft of this report is due to move forward with the water rate case during FYE 2015/16.

The PAs goal for this study is to insure that the rates are fair and equitable to all parties, and set at appropriate levels that balance the facilitation of increased use of recycled water per the City’s agreement with the environmental community, while providing additional monies to operate the system. TKG will review the upcoming draft in-depth to insure that the PAs goals are reached. (Note: This is a carry-over from FYE 2015 as the draft has not been released and is in the Mayors office)

3. Pure Water Program Cost Allocations – With the completion of the Recycled Water Master Plan, the next phase is the implementation of selected capital projects. TKG is currently and will continue to work with the PUD and Metro TAC subcommittee to provide guidance regarding appropriate cost sharing allocations. (Note: This is ongoing from FYE 2015).

- F. Metro TAC Staff Support – This task includes 10 hours per month for unforeseen financial analysis and consulting. TKG will support on an as-needed basis, especially the items contained in the Metro TAC FYE 2015/16 Work plan. Past issues that were supported during FYE 2015 was the reallocation of Metro costs due to the overbilling of Padre Dam Municipal Water District for their sewage strengths. In addition, Brown & Caldwell recently prepared a draft Metro Strength Billing Evaluation Report. This report contained recommendations for changes to the current strength based billing process as well as a billing issue regarding the recycled water flow at North City. In FYE 2015/16 PUD staff will be updating the

transportation rate calculation methodology and potentially the basis for the functional design based rate calculation. TKG will review all calculations to insure that the billing issues, strength base billing changes, and changes to the transportation rate are appropriate.

II. ADDITIONAL SERVICES AS REQUESTED

- A. Review of ongoing background material not envisioned.
- B. Prepare for and attend additional meetings beyond what is included in Section I.
- C. Attendance at IROC in support of the Metro JPA/Commission representatives.
- D. Provide additional follow-up on the additional items identified.
- E. Provide additional technical support on specific projects as directed by the Metro TAC, Finance Committee, and Metro JPA/Commission Chairmen.
- F. Provide technical support, as requested, to fulfill other Metro JPA/Commission objectives.

III. BUDGET

Attached is a spreadsheet showing a not-to-exceed budget of \$98,300. TKG has reduced our billing rate from the Atkins billing rate of \$190 per hour to \$160 per hour. In addition we have reduced the budgeted amount of hours for the Exhibit E audit from 140 hours to 100 hours as we anticipate that resolution of all the outstanding audits will be completed by the end of FYE 2015. Based on the anticipated work on Pure Water Cost Allocation we have raised the number of hours from the budgeted FYE2015 from 60 to 120 which is similar to what has actually been expended in FYE2015. All other tasks are budgeted at the normal hours that are the average of what has been incurred over the years.

GAP ANALYSIS: 2009-2011 METRO JPA STRATEGIC PLAN

In 2009, the METRO JPA adopted five strategic goals and 12 strategic initiatives to accomplish over the following 24 months. In May of 2011, METRO JPA and METRO Technical Advisory Committee (METRO TAC) members completed a survey and workshop to answer two key questions: “where are we?” and “where do we want to be?” The results of the survey are summarized below. The complete results of the survey, including all comments received, are included with this document as Appendix C.

Mission Statement

The Metro JPA's mission is to create an equitable partnership with the San Diego City Council and Mayor on regional wastewater issues. Through stakeholder collaboration, open dialogue, and data analysis, the partnership seeks to ensure fair rates for participating agencies, concern for the environment, and regionally balanced decisions.

METRO JPA and METRO TAC can be forum for Participating Agency environmental initiatives

Leadership

We cannot underestimate our ability, as practitioners in wastewater and recycling, to sway public opinion on important issues. Therefore, we have the opportunity to make a significant impact by taking a leadership role on these issues in our region. Example: Support IPR/Reservoir Augmentation.

Regional Governance

The concept of a regional, independent wastewater agency has intriguing possibilities. Initially proposed by the City of San Diego in 1989, the “Special Act District” was approved by the State Legislature in 1992. However, a general lack of commitment on the part of the City of San Diego and the Participating Agencies resulted in the agency becoming nonfunctional in its first year. The Special Act District now exists in name only and meets once per year. Its members include: The Cities of Coronado, Del Mar, Imperial Beach, Lemon Grove, National City and Poway, as well as the Otay Water District and Padre Dam Municipal Water District. The Participating Agencies have since proposed a joint study of the issue, but the City of San Diego’s Mayor and City Council have been unwilling to consider it. Therefore, this initiative has been shelved.
