4. <u>ACTION</u>: CONSIDERATION AND POSSIBLE ACTION TO MAKE FINDINGS TO CONTINUE HOLDING REMOTE/TELECONFERENCE MEETINGS PURSUANT TO ASSEMBLY BILL 361

General Counsel Norvell provided an overview of the findings needed pursuant to AB 361.

<u>ACTION</u>: Motion Director Anderson, seconded by Vice Chair Peasley, the findings be approved. Carried unanimously

5. <u>ACTION:</u> CONSIDERATION AND POSSIBLE ACTION TO APPROVE THE MINUTES OF THE REGULAR MEETING OF MARCH 3, 2022

ACTION: Motion Director Anderson, second by Vice Chair Peasley, the Minutes of March 3, 2022, be approved. Motion carried unanimously

6. <u>ACTION</u>: CONSIDERATION AND POSSIBLE ACTION TO APPROVE THE PUDS LATEST FIVE-YEAR FINANCIAL PROJECTION

Adam Jones, City of San Diego provided a brief verbal overview of his PowerPoint presentation (included in the agenda package). He noted that the presentation had been modified from what was previously shown to the MetroTAC and San Diego City Council to show solely wastewater.

Karyn Keze noted she was working very hard to separate the numbers and that this was a reimbursement program and that the JPA should protect their agencies incase any problems arose in getting reimbursement via the State Revolving Fund Loans. She noted the average is 81 million but it fluctuates and suggested the January estimate for FY 2023 be used as a baseline for rate cases for the next 4 years as the January estimate was 84.5 million versus 81 million. She further noted that she would be sending a detail out to all agencies to assist them.

ACTION: Since this item had already gone to San Diego City Council, no action was taken as it was not necessarily required.

Karyn Keze noted that this was only the second year we had received these projections so it probably should have been listed as an informational report.

7. <u>ACTION</u>: CONSIDERATION AND POSSIBLE ACTION TO APPROVE THE PROPOSED MODIFICATIONS TO THE METRO JPA BYLAWS; RECEIVED DIRECTION REGARDING POLICY AND PROCEDURES MANUAL

General Counsel Nick Norvell provided a PowerPoint overview of the item noting that the proposal had been brought before the JPA a few months back and an opportunity to review and bring it current was requested. He then provided a verbal summary of the proposed updates noting that a clean version had been included in the agenda package and referenced that a redline version had been sent out this morning. The first change proposed is to add Article VII regarding meeting procedures, including preparation of agendas and how Board Members can add agenda items that do and do not require staff/consultant time 2. Adds Article VIII regarding quorum and voting (consistent with the JPA Agreement) 3. Adds Article IX regarding sharing of confidential information from closed session with Member Agencies' legal counsel legislative bodies 4. Adds Article X regarding Board committees, including how committees are established and appointed. Additional changes include the removing of the section on "Advisory

Directors" updates to the MetroTAC definition updates to the mailing address and Adds additional procedures re Board reimbursements required by law. He then noted that during the discussion that was held at MetroTAC, the question came up as to whether the JPA should have a comprehensive place where policies and procedures are contained. Currently there are a number of separate policies and procedures that are posted on the website but there is not a comprehensive place where they are found or gathered, nor a consistent format or approach to them. The request is for direction as to whether the board would like a "comprehensive policies and procedures manual" that can be updated as policies and procedures are revised in the future. This would assist future staff and Boards and would include the Bylaws Policy on Debt Service and Operating Reserves Record Retention Conflict of Interest Code Social Media Policy Check Signing Policy etc.

Recommendations are:

- 1. Consider approval of the proposed updates to the Metro JPA Bylaws as presented.
- 2. Consider providing direction regarding the creation of a comprehensive Policies & Procedures Manual for Metro JPA.

Director Baber stated he would definitely move Item 1.

Karyn Keze stated that she had been pushing for Item 2 as she felt she was the only one who had all of the policies and new where they were and encouraged the JPA to approve Item 2 so that everyone would have access to these in one place.

Director Baber stated he would also add Item 2 to his motion.

Chair Jones inquired as to whether a vote was needed and stated he had some suggestions to be added which included 1. he would like to increase the per diems per member to 4 meetings per month instead of 3 2. Page 4 of the redline document, section ii - it says reimbursement of actual and necessary expenses incurred in the performance of duties in the course of serving as a Director of the JPA as approved by a motion of the Board of Directors and should say by "action" of the Board of Directors Page 6 should include language regarding items to be included have relevance to business of the JPA (General Counsel stated he could import language from the JPA Agreement). Lastly regarding the Ad Hoc committee language says the Chair would do the appointment but feels it should be that the Chair would put nominees up but the Board would make the actual appointments by action. Also, he is a definite YES on the policies and procedures manual.

Director Spriggs stated he did not agree with adding language regarding relevancy to be included on the agenda.

Director Kendrick stated he had experienced this previously in El Cajon and the time to do this is before there is an issue.

Director Spriggs expressed concerns with perhaps new members wanting to review something that had been addressed in the past and this having the ability to be restrictively against that member.

Director Mullin suggested perhaps requiring a vote of 2 Directors to determine relevancy to add an item onto the agenda.

Director Baber expressed agreement with Director Mullins suggestion.

ACTION: Vice Chair Peasley moved to approve Item 2 for preparation and bring it back the Board for approval, seconded by Director Mullin, carried unanimously with Coronado and Del Mar absent.

Director Mullin moved to approve Item 1 as presented with the change to make a Board initiated agenda items require 2 Board members approval to add. Director Baber seconded the motion. Maker and second concurred to amend their motion to include each item requested by the Chair and add that requirement of 2 Board members to initiated an agenda item and General Counsel to make the requested changes. Amended motion carried unanimously

8. ACTION: CONSIDERATION AND POSSIBLE ACTION TO APPROVE PURE WATER PROGRAM PHASE 2 COST SPLIT

Dexter Wilson provided a brief verbal overview of the PowerPoint presentation included in the agenda package. He noted that Phase 1 included a 50/50 cost split for items that could not be assigned. For Phase 2, the presentation asks the JPA to approve a different cost split number for similar items and to establish a number that hopefully won't change that much throughout the program. He then provided a review of Alternate 1E and split between water and wastewater items and noted they came up with a 62/38 split.

At the conclusion of the presentation, he requested the JPA take action to approve the proposed split to be used going forward to prevent a larger reconciliation in more that a decade from now and noted that both MetroTAC and the JPA Ad Hoc committee had approved this also.

ACTION: Vice Chair Peasley moved to approve proposed split of 62/38, seconded by Director Mullin, carried unanimously with Coronado, Del Mar and Otay absent.

Items 11 and 13B were heard here.

9. PRESENTATION: PURE WATER EARLY SITE WORK CHANGE ORDER SUMMARY AND PROJECT CLOSE OUT

Consultant is aware of the requirements of California Labor Code Sections 1720 et seq. and 1770 et seq., which require the payment of prevailing wage rates and the performance of other requirements on certain "public works" and "maintenance" projects. If the services are being performed as part of an applicable "public works" or "maintenance" project, as defined by the Prevailing Wage Laws, and if the total compensation is \$1,000 or more, Consultant agrees to fully comply with such Prevailing Wage Laws, if applicable. Consultant shall defend, indemnify and hold Metro JPA, its member agencies, elected officials, officers, employees and agents free and harmless from any claims, liabilities, costs, penalties or interest arising out of any failure or alleged failure to comply with the Prevailing Wage Laws. It shall be mandatory upon the Consultant and all subconsultants to comply with all California Labor Code provisions, which include but are not limited to prevailing wages, employment of apprentices, hours of labor and debarment of contractors and subcontractors.

Consultant shall maintain registration for the duration of the Agreement and require the same of any subconsultants. The Services under this Agreement may also be subject to compliance monitoring and enforcement by the DIR. It shall be Consultant's sole responsibility to comply with all applicable registration and labor compliance requirements, including the submission of payroll records directly to the DIR.

15. Laws, Venue, and Attorneys' Fees.

This Agreement shall be interpreted in accordance with the laws of the State of California. If any action is brought to interpret or enforce any term of this agreement, the action

shall be brought in a state or federal court situated in the County of San Diego, State of California. In the event of any such litigation between the Parties, the prevailing party shall be entitled to recover all reasonable costs incurred, including reasonable attorney's fees, as determined by the court.

16. Termination or Abandonment.

- a. Metro JPA has the right to terminate or abandon any portion or all of the work under this Agreement by giving ten (10) calendar days' written notice to Consultant. In such event, Metro JPA shall be immediately given title and possession to all original field notes, drawings and specifications, written reports and other documents produced or developed for that portion of the work completed and/or being abandoned. Metro JPA shall pay Consultant the reasonable value of services rendered for any portion of the work completed prior to termination. If said termination occurs prior to completion of any task for which a payment request has not been received, the charge for services performed during such task shall be the reasonable value of such services, based on an amount mutually agreed to by Metro JPA and Consultant of the portion of such task completed but not paid prior to said termination. Metro JPA shall not be liable for any costs other than the charges or portions thereof which are specified herein. Consultant shall not be entitled to payment for unperformed services, and shall not be entitled to damages or compensation for termination of work.
- b. Consultant may terminate its obligation to provide further services under this Agreement upon thirty (30) calendar days' written notice to Metro JPA only in the event of substantial failure by Metro JPA to perform in accordance with the terms of this Agreement through no fault of Consultant.

Scope of Services

The purpose of the As-Needed Consulting Contract for the Metro Wastewater JPA is to provide technical and financial support to the Participating Agencies ("PAs") in meeting their objectives of fair rates, equitable cost sharing, and program validation. The intention of the As-Needed Contract is to provide review and oversight of the San Diego Metropolitan Sewer System (Metro System) Fiscal Program with a minimum of duplication by the PAs. By combining the efforts of the PAs into a central focal point, our goal is to assist in increasing the responsiveness of the group to key issues of concern, ensure coverage at key meetings, centralize data collection, minimize duplication of efforts by the PAs, and reduce the costs of both Metro TAC/JPA efforts, as well as the overall costs of the Metro System Program.

I. SCOPE OF SERVICES

The effort by The Keze Group, LLC (TKG) will be divided into five major categories, one for routine services, two for specific financial tasks, one for Pure Water Program support, and one for Metro TAC and JPA staff support.

A. Routine Services

The routine services will include the following tasks:

- 1. Attendance and preparation of agendas for Metro TAC meetings.
- 2. Attendance and preparation of agendas for the Metro JPA meetings.
- 3. Attendance and preparation of agendas and minutes for the Metro JPA Finance Committee.
- 4. Attendance at planning/work meetings with Public Utilities Department (PUD) staff.
- 5. Meetings with Metro TAC Chairman and other JPA officials.
- B. Routine Audit Review Public Utilities Department (PUD), Wastewater Operations Branch Exhibit E Audit Review FYs 2020 and 2021
 - 1. Review and negotiate the auditors Scope of Work.
 - 2. Attend Entrance and Exit Conferences with the Auditors.
 - 3. Select operating, CIP, and non-operating revenue audit samples.
 - 4. Attend/call in to Interim work meetings with the Auditors (maximum of 5 per audit).
 - 5. Review all audit samples for contract compliance and accounting accuracy.

- 6. Review the annual general services cost allocation.
- 7. Review output for any special projects (In the past years this has included the reconciliation of Pure Water Program task orders and construction project final bid costs to revise their original cost allocation and insure that only appropriate Metro costs have/had been charged to the PAs). During the FY 2021 audit the 50/50 Phase I Pure Water Program cost allocation will be revised and all associated costs from FY 2014 (project inception) to June 30, 2021 will be reviewed and adjusted once all construction projects are bid. As of 6/30/19 there were 99 purchase/task orders that fall into this category totaling \$44 million. This will require an extensive set of journal entries during the course of the audit that are not routine in nature and will have to be reviewed. If the cost allocation remains at the newest planning numbers of 39% wastewater/61% water this means a potential savings to the PA's of approximately \$1.7 million at their current budget share of 35%.
- 8. Review South Bay recycled water sales and incentives to insure that appropriate revenues are credited to the PAs. Review other income credits to insure that non-operating revenues are credited to the PAs.
- 9. Review the draft and final audit numbers and sample test results. Review the administrative protocol calculations to insure proper allocation of revenues and expenses to the PAs. Prepare list of questions and work on resolution of issues regarding samples.
- 10. Present the results to the Metro Finance Committee, Metro TAC, and Metro Wastewater JPA.
- 11. Monitor closeout process to insure timely payment of refunds (if any) and the accuracy of any additional billings' (if any) to PAs.
- C. Routine Review of MWWD Budget FY 2021 and 2022
 - 1. Line item review of the proposed CIP projects to verify that they are a part of the Wastewater Agreement. Provide a preliminary review of the O&M costs to identify areas of concern for the PAs.
 - 2. Identify budget items that show major deviation from previous years, and discuss these deviations with the City.
 - 3. Attend meetings with the City of San Diego Public Utilities staff to identify the nature and magnitude of the budget items.
 - 4. Provide updates on budget issues to the Metro TAC, the Finance Committee, and the Metro Wastewater JPA meetings.
- D. FY 2021 PUD Water and Wastewater Rate Case PUD has hired a rate consultant to prepare rate cases for both their water and wastewater enterprise funds. It is

anticipated that the rates for San Diego's retail customers will be adopted in early FY 2022. Included in the water rate case will be the review of recycled water rates. As these are PA revenues coordination with PUD staff and their consultant is anticipated.

- E. Pure Water Program Support This task includes 10 hours per month to assist in financial facilitation of Phase I and II of the Pure Water Program. Envisioned subtasks include revisions to the Pure Water Program financial forecast model to update project costs, financing, and timing based on program costs from construction bids anticipated in FY 2021 and FY 2022 and revenue sharing; implementation of the financial "parking lot" items contained in the Amended Restated Agreement; assistance with negotiations for the 2nd Amended Restated Agreement; and continued cost allocation monitoring and updates of all Pure Water purchase/task orders for both O&M and capital projects.
- F. Metro TAC and JPA Staff Support This task includes 12 hours per month for financial analysis and consulting in support of varied Metro TAC Work Plan and JPA projects. TKG will support, as-needed, the items contained in the Metro TAC FY 2022 Work Plan. Some anticipated work tasks include the creation of a billing formula for any PA that diverts their flow from the Metro System for the remaining debt service associated with existing Metro Clean Water facilities and for ongoing capital projects required to maintain them. In addition, the billing Protocol will need to be revised to reflect the cash flow needed for Pure Water Program costs.

II. ADDITIONAL SERVICES AS REQUESTED

- A. Review of ongoing background material not envisioned.
- B. Prepare for and attend additional meetings beyond what is included in Section I.
- C. Provide additional follow-up on the additional items identified.
- D. Provide additional technical support on specific projects as directed by the Metro TAC, Finance Committee, and Metro JPA Chair.
- E. Provide technical support, as requested, to fulfill other Metro JPA objectives.

EXHIBIT "B"

Scope of Services

The purpose of thethis As-Needed Consulting Contract for the Metro Wastewater JPA is to provide technical and financial support to the Participating Agencies ("PAs") in meeting their objectives of fair rates, equitable cost sharing, and program validation. The intention of the As-Needed Contract is to provide review and oversight of the San Diego Metropolitan Sewer System (Metro System) Fiscal ProgramPrograms (Metro O&M, Metro CIP, and Pure Water Phase I and II) with a minimum of duplication by the PAs. By combining the efforts of the PAs into a central focal point, our goal is to assist in increasing the responsiveness of the group to key issues of concern, ensure coverage at key meetings, centralize data collection, minimize duplication of efforts by the PAs, and reduce the costs of both Metro TAC/JPA efforts, as well as the overall costs of the Metro System Programand Pure Water Programs.

Starting with FY 2023 the JPA is establishing a four-year contractual cycle for their consultant contracts and thus the services contained in this scope-of-services covers only the anticipated annual routine services provided during that time. Special services will be provided on an as-needed basis, at the request of the JPA Metro TAC Chair or JPA Chair, and a budget established based on required hours and the hourly rate as set forth in Exhibit B at the time the services are requested.

As of 6/30/19 there were 99 purchase/task orders that fall into this category totaling \$44 million. This will require an extensive set of journal entries during the course of the audit that are not routine in nature and will have to be reviewed. If the cost allocation remains at the newest planning numbers of 39% wastewater/61% water this means a potential savings to the PA's of approximately \$1.7 million at their current budget share of 35%. years covered by this Contract each year every PWP contract or task order, (either CIP or O&M) will be reviewed to insure that only correct Metro cost allocations are being utilized and that the PA's are not paying for Muni or Water costs.

An amendment to this Agreement shall be prepared by the Metro JPA and executed by both Parties before performance of such services, or the Metro JPA will not be required to pay for the changes in the scope of work. Such amendment shall not render ineffective or invalidate unaffected portions of this Agreement.

4. Substitution of Key Personnel.

Consultant has represented to Metro JPA that certain key personnel will perform and coordinate the Services under this Agreement. Should one or more of such personnel become unavailable, Consultant may substitute other personnel of at least equal competence and experience upon written approval of Metro JPA. In such event, Metro JPA shall be immediately given title and possession to all original field notes, drawings and specifications, written reports and other documents produced or developed for that portion of the work completed and/or being abandoned. Metro JPA shall pay Consultant the reasonable value of services rendered for any portion of the work completed prior to termination. If said termination occurs prior to completion of any task for which a payment request has not been received, the charge for services performed during such task shall be the reasonable value of such services, based on an amount mutually agreed to by Metro JPA and Consultant of the portion of such task completed but not paid prior to said termination. Metro JPA shall not be liable for any costs other than the charges or portions thereof which are specified herein. Consultant shall not be entitled to payment for unperformed services, and shall not be entitled to damages or compensation for termination of work.

11. Independent Consultant.

Consultant is retained as an independent contractor and is not an employee of Metro JPA. No employee or agent of Consultant shall become an employee of Metro JPA. f. Evidence Required.

Prior to execution of the Agreement, the Consultant shall file with the Metro JPA evidence of insurance from an insurer or insurers certifying to the coverage of all insurance required herein. - (ii) If at any time during the life of the Agreement, any policy of insurance required under this Agreement does not comply with these specifications or is canceled and not replaced, Metro JPA has the right but not the duty to obtain the insurance it deems necessary and any premium paid by Metro JPA will be promptly reimbursed by Consultant or Metro JPA will withhold amounts sufficient to pay premium from Consultant payments. In the alternative, Metro JPA may cancel this Agreement.
- (iii) Metro JPA may require the Consultant to provide complete copies of all insurance policies in effect for the duration of the Agreement.
- (iv) Neither Metro JPA nor any of its officials, officers, employees, agents or volunteers shall be personally responsible for any liability arising under or by virtue of this Agreement.

Policies of commercial general liability insurance provided by such subcontractors or subconsultants shall be endorsed to name Metro JPA as an additional insured using ISO form CG 20 38 04 13 or an endorsement providing the exact same coverage. If requested by Consultant, Metro JPA may approve different scopes or minimum limits of insurance for particular subcontractors or subconsultants.

13. Indemnification.

To the fullest extent permitted by law, Consultant shall defend (with counsel of Metro JPA's choosing), indemnify and hold Metro JPA, its Board, members of the Board, employees, and authorized volunteers free and harmless from any and all claims, demands, causes of action, suits, actions, proceedings, costs, expenses, liability, judgments, awards, decrees, settlements, loss, damage or injury of any kind, in law or equity, to property or persons, including wrongful death, in any manner arising out of, pertaining to, or incident to any alleged acts, errors or omissions, or willful misconduct of Consultant, its officials, officers, employees, subcontractors, consultants or agents in connection with the performance of the Consultant's services, the Project or this Agreement, including without limitation the payment of all consequential damages, expert witness fees and attorneys' fees and other related costs and expenses. Consultant shall maintain registration for the duration of the Agreement and require the same of any subconsultants. The Services under this Agreement may also be subject to compliance monitoring and enforcement by the DIR. It shall be Consultant's sole responsibility to comply with all applicable registration and labor compliance requirements, including the submission of payroll records directly to the DIR.

15. Laws, Venue, and Attorneys' Fees.

This Agreement shall be interpreted in accordance with the laws of the State of California. If any action is brought to interpret or enforce any term of this agreement, the action shall be brought in a state or federal court situated in the County of San Diego, State of California. In the event of any such litigation between the Parties, the prevailing party shall be entitled to recover all reasonable costs incurred, including reasonable attorney's fees, as determined by the court.

16. Termination or Abandonment.

a. Metro JPA has the right to terminate or abandon any portion or all of the work under this Agreement by giving ninety (90) calendar days' written notice to Consultant. In such event, Metro JPA shall be immediately given title and possession to all Metro JPA Content, written reports and other documents produced or developed for that portion of the work completed and/or being abandoned. Metro JPA shall pay Consultant the reasonable value of services rendered for any portion of the work completed prior to termination. If said termination occurs prior to completion of any task for which a payment request has not been received, the charge for services performed during such task shall be the reasonable value of such services,

based on an amount mutually agreed to by Metro JPA and Consultant of the portion of such task completed but not paid prior to said termination. Metro JPA shall not be liable for any costs other than the charges or portions thereof which are specified herein. Consultant shall not be entitled to payment for unperformed services, and shall not be entitled to damages or compensation for termination of work.

b. Consultant may terminate its obligation to provide further services under this Agreement upon thirty (30) calendar days' written notice to Metro JPA only in the event of substantial failure by Metro JPA to perform in accordance with the terms of this Agreement through no fault of Consultant.

March 8, 2022

Lee Ann Jones, Treasurer Metro Wastewater JPA 9300 Fanita Parkway Santee, CA 92072

Dear Jones:

We are pleased to confirm our understanding of the terms and objectives of our engagement and the nature and limitations of the audit and nonaudit services CliftonLarsonAllen LLP ("CLA," "we," "us," and "our") will provide for Metro Wastewater JPA ("you," "your," or "the entity") for the two year period ending June 30, 2021.

David Forman, CPA is responsible for the performance of the audit engagement.

Scope of audit services

We will audit the financial statements, including the related notes to the financial statements, which collectively comprise the basic financial statements of Metro Wastewater JPA, for the two year period ending June 30, 2021.

The Governmental Accounting Standards Board (GASB) provides for certain required supplementary information (RSI) to accompany the entity's basic financial statements. The RSI will be subjected to certain limited procedures, but will not be audited. The following RSI will be subjected to certain limited procedures, but will not be audited.

1. Management's Discussion and Analysis.

Nonaudit services

We will also provide the following nonaudit services:

Preparation of your financial statements, related notes, and RSI.

Audit objectives

The objectives of our audit are to obtain reasonable assurance about whether the basic financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions about whether your basic financial statements are fairly presented, in all material respects, in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP). Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with auditing standards generally accepted in the United States of America (U.S. GAAS) will always detect a material misstatement when it exists. Misstatements, including omissions, can arise from fraud or error and are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

Our audit will be conducted in accordance with U.S. GAAS and the standards for financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require us to be independent of the entity and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. Our audit will include tests of your accounting records and other procedures we consider necessary to enable us to express such opinions. We will apply certain limited procedures to the RSI in accordance with U.S. GAAS. However, we will not express an opinion or provide any assurance on the RSI because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

We will issue a written report upon completion of our audit of your financial statements. Circumstances may arise in which our report may differ from its expected form and content based on the results of our audit. Depending on the nature of these circumstances, it may be necessary for us to modify our opinion, add an emphasis-of-matter or other-matter paragraph to our auditors' report, or if necessary, withdraw from the engagement. If our opinions on the financial statements is other than unmodified, we will discuss the reasons with you in advance. If circumstances occur related to the condition of your records, the availability of sufficient, appropriate audit evidence, or the existence of a significant risk of material misstatement of the financial statements caused by error, fraudulent financial reporting, or misappropriation of assets, which in our professional judgment prevent us from completing the audit or forming opinions on the financial statements, we retain the right to take any course of action permitted by professional standards, including declining to express opinions or issue a report, or withdrawing from the engagement.

We will also provide a report (which does not include an opinion) on internal control over financial reporting and on compliance with the provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a material effect on the financial statements, as required by *Government Auditing Standards*. The report on internal control over financial reporting and on compliance and other matters will include a paragraph that states (1) that the purpose of the report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance, and (2) that the report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. The paragraph will also state that the report is not suitable for any other purpose. If during our audit we become aware that the entity is subject to an audit requirement that is not encompassed in the terms of this engagement, we will communicate to management and those charged with governance that an audit conducted in accordance with U.S. GAAS and the standards for financial audits contained in *Government Auditing Standards* may not satisfy the relevant legal, regulatory, or contractual requirements.

Auditor responsibilities, procedures, and limitations

We will conduct our audit in accordance with U.S. GAAS and the standards for financial audits contained in *Government Auditing Standards*. Those standards require that we exercise professional judgment and maintain professional skepticism throughout the planning and performance of the audit. As part of our audit, we will:

Identify and assess the risks of material misstatement of the financial statements, whether due to fraud
or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that
is sufficient and appropriate to provide a basis for our opinions. The risk of not detecting a material
misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve
collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures
 that are appropriate in the circumstances, but not for the purpose of expressing opinions on the
 effectiveness of the entity's internal control. However, we will communicate to you in writing any
 significant deficiencies or material weaknesses in internal control relevant to the audit of the basic
 financial statements that we have identified during the audit.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant
 accounting estimates made by management, as well as evaluate the overall presentation of the basic
 financial statements, including the amounts and disclosures, and whether the basic financial statements
 represent the underlying transactions and events in a manner that achieves fair presentation.
- Conclude, based on the audit evidence obtained, whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the entity's ability to continue as a going concern for a reasonable period of time.

There is an unavoidable risk, because of the inherent limitations of an audit, together with the inherent limitations of internal control, that some material misstatements may not be detected, even though the audit is properly planned and performed in accordance with U.S. GAAS and *Government Auditing Standards*. Because we will not perform a detailed examination of all transactions, material misstatements, whether from (1) errors, (2) fraudulent financial reporting, (3) misappropriation of assets, or (4) violations of laws or governmental regulations that are attributable to the entity or to acts by management or employees acting on behalf of the entity, may not be detected. Because the determination of waste and abuse is subjective, *Government Auditing Standards* do not require auditors to perform specific procedures to detect waste or abuse in financial audits nor do they expect auditors to provide reasonable assurance of detecting waste or abuse.

In addition, an audit is not designed to detect immaterial misstatements or violations of laws or governmental regulations that do not have a direct and material effect on the financial statements. However, we will inform the appropriate level of management and those charged with governance of any material errors, fraudulent financial reporting, or misappropriation of assets that come to our attention. We will also inform the appropriate level of management and those charged with governance of any violations of laws or governmental regulations that come to our attention, unless clearly inconsequential.

Tests of controls may be performed to test the effectiveness of certain controls that we consider relevant to preventing and detecting fraud or errors that are material to the financial statements and to preventing and detecting misstatements resulting from noncompliance with provisions of laws, regulations, contracts, and grant agreements that have a material effect on the financial statements. Our tests, if performed, will be less in scope than would be necessary to render an opinion on internal control and, accordingly, no opinion will be expressed in our report on internal control issued pursuant to *Government Auditing Standards*. An audit is not designed to provide assurance on internal control or to identify deficiencies, significant deficiencies, or material weaknesses in internal control. However, we will communicate to you in writing significant deficiencies or material weaknesses in internal control relevant to the audit of the basic financial statements that we identify during the audit that are required to be communicated under AICPA professional standards and *Government Auditing Standards*.

As part of obtaining reasonable assurance about whether the financial statements are free of material misstatement, we will perform tests of the entity's compliance with the provisions of laws, regulations, contracts, and grant agreements that have a material effect on the financial statements. However, the objective of our audit will not be to provide an opinion on overall compliance and we will not express such an opinion in our report on compliance issued pursuant to *Government Auditing Standards*.

We will include in our report on internal control over financial reporting and on compliance relevant information about any identified or suspected instances of fraud and any identified or suspected noncompliance with provisions of laws, regulations, contracts, or grant agreements that may have occurred that are required to be communicated under *Government Auditing Standards*.

Our responsibility as auditors is limited to the period covered by our audit and does not extend to any later periods for which we are not engaged as auditors.

Management responsibilities

Our audit will be conducted on the basis that you (management and, when appropriate, those charged with governance) acknowledge and understand that you have certain responsibilities that are fundamental to the conduct of an audit.

You are responsible for the preparation and fair presentation of the financial statements and RSI in accordance with U.S. GAAP. Management's responsibilities include the selection and application of accounting principles; recording and reflecting all transactions in the financial statements; determining the reasonableness of significant accounting estimates included in the financial statements; adjusting the financial statements to correct material misstatements; and confirming to us in the management representation letter that the effects of any uncorrected misstatements aggregated by us during the current engagement and pertaining to the latest period presented are immaterial, both individually and in the aggregate, to the financial statements taken as a whole. In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the entity's ability to continue as a going concern for 12 months beyond the financial statement date.

You are responsible for the design, implementation, and maintenance of effective internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error, including evaluating and monitoring ongoing activities and safeguarding assets to help ensure that appropriate goals and objectives are met. You are responsible for the design, implementation, and maintenance of internal controls to prevent and detect fraud; assessing the risk that the financial statements may be materially misstated as a result of fraud; and for informing us about all known or suspected fraud affecting the entity involving (1) management, (2) employees who have significant roles in internal control, and (3) others where the fraud could have a material effect on the financial statements. Your responsibilities include informing us of your knowledge of any allegations of fraud or suspected fraud affecting the entity received in communications from employees, former employees, grantors, regulators, or others. In addition, you are responsible for implementing systems designed to achieve compliance with applicable laws and regulations and the provisions of contracts and grant agreements; identifying and ensuring that the entity complies with applicable laws, regulations, contracts, and grant agreements; and informing us of all instances of identified or suspected noncompliance whose effects on the financial statements should be considered. You are responsible

for taking timely and appropriate steps to remedy any fraud and noncompliance with provisions of laws, regulations, contracts, and grant agreements that we may report.

You are responsible for providing us with (1) access to all information of which you are aware that is relevant to the preparation and fair presentation of the financial statements, including amounts and disclosures, such as records, documentation, identification of all related parties and all related-party relationships and transactions, and other matters, and for the accuracy and completeness of that information (including information from within and outside of the general and subsidiary ledgers), and for ensuring management information and financial information is reliable and properly reported; (2) additional information that we may request for the purpose of the audit; and (3) unrestricted access to persons within the entity from whom we determine it necessary to obtain audit evidence. You agree to inform us of events occurring or facts discovered subsequent to the date of the financial statements that may affect the financial statements.

Management is responsible for providing us with a written confirmation concerning representations made by you and your staff to us in connection with the audit and the presentation of the basic financial statements and RSI. During our engagement, we will request information and explanations from you regarding, among other matters, the entity's activities, internal control, future plans, specific transactions, and accounting systems and procedures. The procedures we will perform during our engagement and the conclusions we reach as a basis for our report will be heavily influenced by the representations that we receive in the representation letter and otherwise from you. Accordingly, inaccurate, incomplete, or false representations could cause us to expend unnecessary effort or could cause a material fraud or error to go undetected by our procedures. In view of the foregoing, you agree that we shall not be responsible for any misstatements in the entity's financial statements that we may fail to detect as a result of misrepresentations made to us by you.

Management is responsible for establishing and maintaining a process for tracking the status of audit findings and recommendations. Management is also responsible for identifying for us previous financial audits, attestation engagements, performance audits, or other studies related to the objectives discussed in the "Audit objectives" section of this letter. This responsibility includes relaying to us corrective actions taken to address significant findings and recommendations resulting from those audits, attestation engagements, performance audits, or other engagements or studies. You are also responsible for providing management's views on our current findings, conclusions, and recommendations, as well as your planned corrective actions for the report, and for the timing and format for providing that information.

Responsibilities and limitations related to nonaudit services

For all nonaudit services we may provide to you, management agrees to assume all management responsibilities; oversee the services by designating an individual, preferably within senior management, who possesses suitable skill, knowledge, and/or experience to understand and oversee the services; evaluate the adequacy and results of the services; and accept responsibility for the results of the services. Management is also responsible for ensuring that your data and records are complete and that you have received sufficient information to oversee the services.

The responsibilities and limitations related to the nonaudit services performed as part of this engagement are as follows:

• We will prepare a draft of your financial statements, related notes, and RSI. Since the preparation and fair presentation of the financial statements and RSI is your responsibility, you will be required to acknowledge in the representation letter our assistance with preparation of the financial statements and RSI and that you have reviewed and approved the financial statements, related notes, and RSI prior to their issuance and have accepted responsibility for those financial statements and RSI. You have a responsibility to be in a position in fact and appearance to make an informed judgment on those financial statements and RSI.

These nonaudit services do not constitute an audit under *Government Auditing Standards* and such services will not be conducted in accordance with *Government Auditing Standards*.

Use of financial statements

The financial statements and our report thereon are for management's use. If you intend to reproduce and publish the financial statements and our report thereon, they must be reproduced in their entirety. Inclusion of the audited financial statements in a document, such as an annual report or an offering document, should be done only with our prior approval of the document. You are responsible to provide us the opportunity to review such documents before issuance.

If the parties (i.e., you and CLA) agree that CLA will not be involved with your official statements related to municipal securities filings or other offering documents, we will require that any official statements or other offering documents issued by you with which we are not involved clearly indicate that CLA is not involved with the contents of such documents. Such disclosure should read as follows:

CliftonLarsonAllen LLP, our independent auditor, has not been engaged to perform and has not performed, since the date of its report included herein, any procedures on the financial statements addressed in that report. CliftonLarsonAllen LLP also has not performed any procedures relating to this offering document.

With regard to the electronic dissemination of audited financial statements, including financial statements published electronically on your website or submitted on a regulator website, you understand that electronic sites are a means to distribute information and, therefore, we are not required to read the information contained in those sites or to consider the consistency of other information in the electronic site with the original document.

We may issue preliminary draft financial statements to you for your review. Any preliminary draft financial statements should not be relied on or distributed.

Engagement administration and other matters

We expect to begin our audit on approximately March 2022.

We understand that your employees will prepare all confirmations, account analyses, and audit schedules we request and will locate any documents or invoices selected by us for testing.

We will provide copies of our reports to the entity; however, management is responsible for distribution of the reports and the financial statements. Unless restricted by law or regulation, or containing confidential or sensitive information, copies of our reports are to be made available for public inspection.

The audit documentation for this engagement is the sole and exclusive property of CLA and constitutes confidential and proprietary information. However, subject to applicable laws and regulations, audit documentation and appropriate individuals will be made available upon request and in a timely manner to grantor agencies, or its designees, a federal agency providing direct or indirect funding, or the U.S. Government Accountability Office for purposes of a quality review of the audit, to resolve audit findings, or to carry out oversight responsibilities. We will notify you of any such request. If requested, access to such audit documentation will be provided under the supervision of CLA personnel. Furthermore, upon request, we may provide copies of selected audit documentation to the aforementioned parties. These parties may intend, or decide, to distribute the copies or information contained therein to others, including other governmental agencies.

The audit documentation for this engagement will be retained for a minimum of seven years after the report release date or for any additional period requested by the grantor agencies If we are aware that a federal awarding agency, pass-through entity, or auditee is contesting an audit finding, we will contact the party(ies) contesting the audit finding for guidance prior to destroying the audit documentation.

Except as permitted by the "Consent" section of this agreement, CLA will not disclose any confidential, proprietary, or privileged information of the entity to any persons without the authorization of entity management or unless required by law. This confidentiality provision does not prohibit us from disclosing your information to one or more of our affiliated companies in order to provide services that you have requested from us or from any such affiliated company. Any such affiliated company shall be subject to the same restrictions on the use and disclosure of your information as apply to us.

Professional standards require us to be independent with respect to you in the performance of these services. Any discussion that you have with our personnel regarding potential employment with you could impair our independence with respect to this engagement. Therefore, we request that you inform us prior to any such discussions so that we can implement appropriate safeguards to maintain our independence and objectivity. Further, any employment offers to any staff members working on this engagement without our prior knowledge may require substantial additional procedures to ensure our independence. You will be responsible for any additional costs incurred to perform these procedures.

Our relationship with you is limited to that described in this letter. As such, you understand and agree that we are acting solely as independent accountants. We are not acting in any way as a fiduciary or assuming any fiduciary responsibilities for you. We are not responsible for the preparation of any report to any governmental agency, or any other form, return, or report or for providing advice or any other service not specifically recited in this letter.

Our engagement ends on delivery of our signed report. Any additional services that might be requested will be a separate, new engagement. The terms and conditions of that new engagement will be governed by a new, specific engagement letter for that service.

Government Auditing Standards require that we make our most recent external peer review report publicly available. The report is posted on our website at www.CLAconnect.com/Aboutus/.

Mediation

Any disagreement, controversy, or claim ("Dispute") that may arise out of any aspect of our services or relationship with you, including this engagement, shall be submitted to non-binding mediation by written notice ("Mediation Notice") to the other party. In mediation, we will work with you to resolve any differences voluntarily with the aid of an impartial mediator.

The mediation will be conducted as specified by the mediator and agreed upon by the parties. The parties agree to discuss their differences in good faith and to attempt, with the assistance of the mediator, to reach an amicable resolution of the Dispute.

Each party will bear its own costs in the mediation. The fees and expenses of the mediator will be shared equally by the parties.

Any Dispute will be governed by the laws of the state of Minnesota, without giving effect to choice of law principles.

Time limitation

The nature of our services makes it difficult, with the passage of time, to gather and present evidence that fully and fairly establishes the facts underlying any Dispute that may arise between the parties. The parties agree that, notwithstanding any statute or law of limitations that might otherwise apply to a Dispute, including one arising out of this agreement or the services performed under this agreement, for breach of contract or fiduciary duty, tort, fraud, misrepresentation or any other cause of action or remedy, any action or legal proceeding by you against us must be commenced within twenty-four (24) months ("Limitation Period") after the date when we deliver our final audit report under this agreement to you, regardless of whether we do other services for you relating to the audit report, or you shall be forever barred from commencing a lawsuit or obtaining any legal or equitable relief or recovery.

The Limitation Period applies and begins to run even if you have not suffered any damage or loss, or have not become aware of the existence or possible existence of a Dispute.

Fees

We estimate that our professional fees will be \$12,000. We will also bill for expenses (including travel, other costs such as report production, word processing, postage, etc., and internal and administrative charges) plus a technology and client support fee of five percent (5%) of all professional fees billed. These fees are based on anticipated cooperation from your personnel and their assistance with preparing confirmations and requested schedules. If the requested items are not available on the dates required or are not accurate, the fees and expenses will likely be higher. If unexpected circumstances require significant additional time, we will advise you before undertaking work that would require a substantial increase in the fee and expense estimates. Our invoices, including applicable state and local taxes, will be rendered each month as work progresses and are payable on presentation. In accordance with our firm policies, work may be suspended if your account becomes 30 days or more overdue and will not be resumed until your account is paid in full. If we elect to terminate our services for nonpayment, our engagement will be deemed to have been completed even if we have not issued

our reports. You will be obligated to compensate us for all time expended and related fees and to reimburse us for all out-of-pocket expenditures through the date of termination.

Changes in accounting and audit standards

Standard setters and regulators continue to evaluate and modify standards. Such changes may result in new or revised financial reporting and disclosure requirements or expand the nature, timing, and scope of the activities we are required to perform. To the extent that the amount of time required to provide the services described in this letter increases due to such changes, our fee may need to be adjusted. We will discuss such circumstances with you prior to performing the additional work.

Changes related to COVID-19

COVID-19 continues to have significant direct and indirect impacts on financial reporting, disclosure requirements, and the nature, timing, and scope of the activities we are required to perform. To the extent that the amount of time required to provide the services described in this letter increases due to such changes, our fee may need to be adjusted. We will discuss such circumstances with you prior to performing the additional work.

Other fees

You also agree to compensate us for any time and expenses, including time and expenses of legal counsel, we may incur in responding to discovery requests or participating as a witness or otherwise in any legal, regulatory, or other proceedings that we are asked to respond to on your behalf.

Finance charges and collection expenses

You agree that if any statement is not paid within 30 days from its billing date, the unpaid balance shall accrue interest at the monthly rate of one and one-quarter percent (1.25%), which is an annual percentage rate of 15%. In the event that any collection action is required to collect unpaid balances due us, reasonable attorney fees and expenses shall be recoverable.

Consent

Consent to use information for benchmarking analysis

In an effort to better serve the needs of our clients, we develop a variety of benchmark, performance indicator, and predictive analysis reports, using anonymized client data obtained from our audit, tax, and other engagements. Business and financial information that you provide to us may be combined with information from other clients and included within the aggregated data that we use in these reports. While some of these analytical reports will be published and released publicly, please be assured that the separate information that we obtain from you will remain confidential, as required by the AICPA Code of Professional Conduct.

Subcontractors

CLA may, at times, use subcontractors to perform services under this agreement, and they may have access to your information and records. Any such subcontractors will be subject to the same restrictions on the use of such information and records as apply to CLA under this agreement.

Agreement

We appreciate the opportunity to be of service to you and believe this letter accurately summarizes the significant terms of our engagement. This letter constitutes the entire agreement regarding these services and supersedes all prior agreements (whether oral or written), understandings, negotiations, and discussions between you and CLA. If you have any questions, please let us know. Please sign, date, and return this letter to us to indicate your acknowledgment and understanding of, and agreement with, the arrangements for our audit of your financial statements including the terms of our engagement and the parties' respective responsibilities.

Sincerely,

CliftonLarsonAllen LLP

ELECTRONIC RECORD AND SIGNATURE DISCLOSURE

From time to time, CliftonLarsonAllen LLP (we, us or Company) may be required by law to provide to you certain written notices or disclosures. Described below are the terms and conditions for providing to you such notices and disclosures electronically through the DocuSign system. Please read the information below carefully and thoroughly, and if you can access this information electronically to your satisfaction and agree to this Electronic Record and Signature Disclosure (ERSD), please confirm your agreement by selecting the check-box next to 'I agree to use electronic records and signatures' before clicking 'CONTINUE' within the DocuSign system.

Getting paper copies

At any time, you may request from us a paper copy of any record provided or made available electronically to you by us. You will have the ability to download and print documents we send to you through the DocuSign system during and immediately after the signing session and, if you elect to create a DocuSign account, you may access the documents for a limited period of time (usually 30 days) after such documents are first sent to you. After such time, if you wish for us to send you paper copies of any such documents from our office to you, you will be charged a \$0.00 per-page fee. You may request delivery of such paper copies from us by following the procedure described below.

Withdrawing your consent

If you decide to receive notices and disclosures from us electronically, you may at any time change your mind and tell us that thereafter you want to receive required notices and disclosures only in paper format. How you must inform us of your decision to receive future notices and disclosure in paper format and withdraw your consent to receive notices and disclosures electronically is described below.

Consequences of changing your mind

If you elect to receive required notices and disclosures only in paper format, it will slow the speed at which we can complete certain steps in transactions with you and delivering services to you because we will need first to send the required notices or disclosures to you in paper format, and then wait until we receive back from you your acknowledgment of your receipt of such paper notices or disclosures. Further, you will no longer be able to use the DocuSign system to receive required notices and consents electronically from us or to sign electronically documents from us.

All notices and disclosures will be sent to you electronically

Unless you tell us otherwise in accordance with the procedures described herein, we will provide electronically to you through the DocuSign system all required notices, disclosures, authorizations, acknowledgements, and other documents that are required to be provided or made available to you during the course of our relationship with you. To reduce the chance of you inadvertently not receiving any notice or disclosure, we prefer to provide all of the required notices and disclosures to you by the same method and to the same address that you have given us. UPDATE PURE WATER PROGRAM

Metro TAC Meeting – April 20, 2022

Pure Water Update

- 1. Two Phase 1 contracts have yet to be awarded:
 - a. The Morena South & Middle
 - i. Opened bids March 17
 - ii. Rascik [also has the contract for the North City Pure Water PL] is the apparent low bidder, the engineer's estimate was \$115M, the bid is \$116M
 - iii. The Rascik bid is still under review by our Contracts Department
 - b. The Miramar Reservoir PS Improvements
 - i. Advertised on March 18
 - ii. The current bid opening date is April 29
 - iii. Engr's estimate: \$10.2M
- 2. Bundling of Pure and Non-Pure Construction in the Right-of-Way
 - a. Non-Pure water main replacements were 'bundled' with Pure Water pipelines to facilitate management of community impacts during construction. This is a common City practice.
 - b. However, due to conflicting City and State requirements related to labor on certain projects, non-Pure Water scope must now be 'unbundled,' <u>removed</u> from Pure Water construction contracts, and bid separately.
 - Pure Water Projects affected: Morena PL and Pure Water PL
 - c. Minimal schedule impacts have occurred due to unbundling. City is currently working on revised advertise dates for the non-Pure Water scope(s).
