Ms. Keze introduced Ms. Daphne Munoz from CLA, who in conjunction with Rob Pearl served as the audit team for the JPA's FY 2020-21 audit, expressing gratitude for their swift completion of the task. She expressed satisfaction with the successful completion of the audit, which ensures the JPA is up to date with its reporting obligations. Looking ahead, preparations for the FY 2022-2023 JPA Audit are underway and it will commence shortly.

Ms. Munoz provided an overview of the Audit, included in the agenda package. Her overview included A) Presentation: Communication with Those Charged with Governance; B) Governance Communication; C) Financial Statements for the Two-Year Period Ended June 30, 2021 and D) Internal Controls Communication. Ms. Munoz stated that upon completion of their audit, they had issued an unmodified opinion which is the highest form of opinion any entity can get. She also noted that they had issued a management letter and during the year had one material weakness but did not have any significant deficiencies nor did they have any other matter comments. There were adjustments proposed that were corrected by management and there were no disagreements during the course of the audit.

Karyn Keze introduced the item noting that the negotiations with the City of San Diego on the SARA started back on April 1, 2021. Ms. Keze stated that a rewrite to the document to consolidate and organize the sections was also being performed. She then introduced Paul Brown, facilitator between the JPA and the City of San Diego with Paul Redvers Brown Inc., who provided a brief overview of his PowerPoint presentation included in the agenda package.

Director Jassoy stated she would be submitting a letter from her agency with questions and comments pertaining to number 2. Ms. Keze stated that this was just a presentation and she would welcome their letter and any others so that they can be addressed. Alternate Director Kazmer requested someone from the East County be included on the negotiating team. Ms. Keze noted that they were almost done and that the negotiating team runs parallel to the JPA's Pure Water Ad Hoc Committee. Chair Jones interjected that he made sure since the beginning of this process that there was representation from East County and noted that the Ad Hoc Committee included Director Kendrick and MetroTAC Vice Chair Behringer, both of El Cajon.

Director Preciado stated that he sits on the Ad Hoc Committee as Chula Vista is the largest user and wanted to ensure everyone that all their rights were being protected. Furthermore, he expressed support for the cohesive partnership and appreciated the language updates and rate setting updates from 1998. Ms. Keze expressed appreciation, from a staff perspective, for the hard work of the Ad Hoc Committee. Vice Chair De Hoff concurred and stated appreciation for the ability to make minor changes without having to reopen the entire document. Director Duncan stated he was on the Ad Hoc as well and felt the committee has done an excellent job on their mission and provided a couple housekeeping corrections to the minutes and Executive Director's report. Director Preciado stated that the JPA PAs work together with the City of San Diego was remarkable in terms of governance and decision making and thus he felt it very appropriate to get to new agreements with what our shared and individual costs are, and that many of the costs may be related to the ability to operate. This has an important value that PAs have been investing in over time. Lastly, when the PAs can get together to discuss all these elements together, they will see things have been flowing in the right direction in terms of paying the fair share of costs and could streamline the processes when new decisions need to be made.

<u>Carbon Activated Corporation</u> The Public Utilities Department (PUD) employs carbon towers in odor removal systems at wastewater facilities citywide. These towers target odorous compounds like hydrogen sulfide and volatile organic compounds which occur naturally and require treatment upon entering wastewater facilities. Wastewater facilities utilize odor control systems regulated by the Air Pollution Control District (APCD), including activated carbon towers that adsorb hydrogen sulfide. Removal and replacement of activated carbon is necessary once the sulfur content threshold specified in each facility's APCD permit is reached. Failure to comply with the APCD Permit will result in a notice of violation and may result in fines. In order to reduce emissions to the atmosphere, air from the open spaces between the water level and top of the tank is routed via blowers to the carbon tower where the activated carbon will adsorb the compounds to eliminate odor. The carbon towers are located at the Point Loma Wastewater Treatment Plant, North City Water Reclamation Plant, South Bay Water Reclamation Plant, Metro Biosolids Center, Otay River Pump Station, Pump Station 2, and Grove Avenue Pump Station. <u>Kemira Water Solutions</u> The Public Utilities Department Miramar, Alvarado, and Otay Water Treatment Plants and Point Loma Wastewater Treatment Plant require ferric chloride for water and wastewater. Ferric chloride is used to coagulate particles for sedimentation in the water and wastewater treatment processes. It is required to comply with Federal, State, and County regulations to ensure the health and safety of residents.	

California Water Technologies

The Public Utilities Department, Wastewater Treatment and Disposal Division requires ferrous chloride at the Point Loma Wastewater Treatment Plant, Metropolitan Biosolids Center, and North City Water Reclamation Plant.

Ferrous chloride (FeCl_2) is a chemical used for hydrogen sulfide (H_2S) control in wastewater treatment plants. H_2S is a corrosive chemical which causes odor and is hazardous to human health. Control of H_2S concentrations in the wastewater treatment process is an environmental, safety, and regulatory requirement. Additionally, control of H_2S is important for preserving the wastewater system infrastructure.

Discussion: *Provide information on decisions made to advance the project*

These are operational and regulated items within the wastewater treatment process.

Bid Results: *If bidding was done provide bidding format and results*

Periodic payments shall be made within thirty (30) days of receipt of a statement for services rendered. Payments to Consultant for work performed will be made on a monthly billing basis.

An amendment to this Agreement shall be prepared by the Metro JPA and executed by both Parties before performance of such services, or the Metro JPA will not be required to pay for the changes in the scope of work. Such amendment shall not render ineffective or invalidate unaffected portions of this Agreement.

4. Substitution of Key Personnel.

Consultant has represented to Metro JPA that certain key personnel will perform and coordinate the Services under this Agreement. Should one or more of such personnel become unavailable, Consultant may substitute other personnel of at least equal competence and experience upon written approval of Metro JPA. Scope of Services

The purpose of this As-Needed Consulting Contract for the Metro Wastewater JPA is to provide technical and financial support to the Participating Agencies (“PAs”) in meeting their objectives of fair rates, equitable cost sharing, and program validation. The intention of the As-Needed Contract is to provide review and oversight of the San Diego Metropolitan Sewer System (Metro System) Fiscal Programs (Metro O&M, Metro CIP, and Pure Water Phase I and II) with a minimum of duplication by the PAs. By combining the efforts of the PAs into a central focal point, our goal is to assist in increasing the responsiveness of the group to key issues of concern, ensure coverage at key meetings, centralize data collection, minimize duplication of efforts by the PAs, and reduce the costs of both Metro TAC/JPA efforts, as well as the overall costs of the Metro System and Pure Water Programs.

Starting with FY 2023 the JPA is establishing a four-year contractual cycle for their consultant contracts and thus the services contained in this scope-of-services covers only the anticipated annual routine services provided during that time. Ms. Beth Gentry, P.E.
 Metro TAC Chair
 Metropolitan Wastewater Joint Powers Authority
 P.O. Box 1072
 National City, CA 91951

Dear Ms. Gentry:

Per Provisions in my current four-year Professional Service Agreement (Contract), with the Metro Wastewater Joint Powers Authority (Metro JPA), I am requesting an increase in my contract cost ceiling from \$100,000 to \$150,000. As we have discussed in budget tracking meetings with Metro JPA/Commission Chair Jones, this fiscal year has been an inordinately busy year with such unbudgeted items as the shift in my current consulting roll from consultant to a management role for the Metro JPA's Executive Team which included updating the JPA's website, planning two new Director orientations, and coordination of the Executive Consulting Team. In addition, as a member of the Executive Consulting Team I have addressed one-time unbudgeted issues such as the repeated sewage spills at Pumps Stations 1 and 2 and our inclusion in the Residuals Agreement negotiations, which started at the end of last fiscal year and continued for several months this fiscal year. All of these started after the Metro JPA's FY2023 budget was adopted (and thus my current Professional Services Agreement scope of services) and have affected all your Executive Consulting Team including myself, as they were not budgeted for in FYE2023.

Per your request I analyzed my year-to-date billings in detail to the Metro JPA (July 2022 to month-end February 2023). These were reviewed with Chair Jones and yourself and per your request I am providing an amended scope of services to my existing Contract to include the revised scope of services and the transition from financial consultant to the Metro JPA's Administrative Coordinator. The revised scope of service is attached to this letter and the new items to be included in my revised Contract are highlighted in yellow. The revised scope of services includes an additional 21 hours per month to generally cover the tasks described as follows:

Task	Description	HOURS			DOLLARS	
		Current Contract Hours	Proposed Monthly Increase	Proposed Annual Increase	Amended Contract Hours	Amended Contract Amount
1	Routine Meetings	75	4	48	123	\$20,910.00
2	Exhibit E Audit Review	100			100	\$17,000.00
3	Review of PUD Budget	30	2	24	54	\$9,180.00
4	ARA SBB/SD Rate Cases	40	4	48	88	\$14,960.00
5	Pure Water Program Cost Allocation	236	5	64	300	\$51,000.00
6	Metro TAC & JPA Staff Support	144			144	\$24,480.00
7	General JPA Administrative Management	0	6	72	72	\$12,240.00
	TOTAL	625	21	256	881	\$149,770.00

These are generally described below with more details included in the Scope of Services:

Task 1: Routine Board of Directors and Metro TAC Meetings – 4 hours per month

Inclusion of increased hours to support up to 2 AdHoc Committees per month.

Task 3: Review of City of San Diego Public Utilities (PUD) Budget and Five-Year Projections – 2 hours per month

Inclusion of hours to support Metro TAC members in understanding their annual billings from the City of San Diego for Metro O&M and Capital expenses and other technical and financial issues. These hours are based on the recent hours I have incurred preparing presentations and providing training meetings for two of our PAs who have new TAC members.

Task 4: ARA Strength Based Billing and PUD Internal Rate Case Review – 4 hours per month

Inclusion of hours to provide more in-depth review of the upcoming draft revised Metro Sewer Service Charge rate structure financial model to ensure the integrity of its calculations and cost allocations and implementation training during FYE2025 and FYE2026 for PAs.

Task 5: Pure Water Program Negotiations and Cost Allocations – 5 hours per month

Inclusion of additional hours, based on projected FYE 2023 year-end costs, to cover additional unbudgeted work tasks for completion and implementation of 2nd ARA and cost reconciliations of Pure Water Capital and O&M costs as we transition into the operation of Phase 1 facilities.

Task 7: Metro JPA Administrative Coordinator: General JPA Administrative Management – 6 hours per month

This is a new task added at the request of the Metro JPA and TAC Chairs to coordinate all aspects of the JPAs administration and Executive Team consultants.

I would like to thank you and Chair Jones for the opportunity to assume the role of Administrative Coordinator for the JPA. I look forward to working with you both to fulfill the Mission's and Vision's of the Metro Wastewater JPA in the upcoming years.

Sincerely,

Karyn L. Keze

Resolution of the Metro Wastewater Joint Powers Authority Adopting Amended Conflict of Interest Code Pursuant to the Political Reform Act of 1974

MEMORANDUM

SAN DIEGO
DEL MAR HEIGHTS
SILICON VALLEY
LAS VEGAS
PHOENIX

TO: Metro Wastewater JPA Finance Committee

FROM: Adriana R. Ochoa

DATE: March 21, 2024

RE: Agenda Item No. 8: Process to Amend Metro Wastewater JPA Conflict of Interest Code and Submittal to the County of San Diego

Presented for discussion and for recommendation for approval are draft documents to amend Metro Wastewater Joint Powers Authority's (the "**JPA**") Conflict of Interest Code ("**Code**") pursuant to the Political Reform Act ("**Act**"). It is appropriate and recommended to amend the JPA's Code in light of the most recent reorganization and approval of the new Executive Director position and other job descriptions.

Below are the steps needed for the JPA to amend its Code under the FPPC's regulations, utilizing the attached draft documents that we have updated.

A. Public Officials as "Designated Positions"

The Act applies to "public officials," including "every member, officer, employee or consultant of a state or local government agency." (Gov. Code § 82048.) A key threshold function of the Code is to identify JPA's "designated" positions that meet any of the following criteria:

1. A position is designated in a Conflict of Interest Code because the position entails the making or participation in the making of decisions which may foreseeably have a material effect on any financial interest.
2. A position that participates in decisions by regularly making recommendations to decision-makers at JPA that are generally followed. The FPPC requires such positions, whether an employee or a consultant, to be designated even though the person has no final decision-making authority.
3. Consultant positions with authority to make decisions affecting the day-to-day operations of JPA, and with the potential to have a foreseeable and material effect on any financial interest of the consultant. For example, an auditor who provides financial statements, and who may from time-to-time make recommendations on internal controls, need not be designated if the recommendations are not regular. By contrast, a Financial Consultant hired by JPA who by

definition makes regular recommendations to hire certain consultants or approve certain contracts should probably be designated for that limited scope.

The Code must require individuals who hold designated positions to annually file a Statement of Economic Interests (the “Form 700”). The Code also identifies the type and scope of financial interests each designated position must disclose on the Form 700, which is based on what decisions the position could foreseeably affect within the scope of its assigned duties.

B. Steps to Amend JPA’s Code

Step 1:¹ The JPA Board of Directors should adopt the proposed amended Code at its April 4, 2024 Board meeting. Attached is a draft resolution for the Board to consider (Attachment 1), along with the proposed amended Code and appendices that are attached to the resolution (Attachment A to Attachment 1).

Step 2: As soon as possible after the Board adopts the resolution, make the Notice of Intention to Amend a Conflict of Interest Code (draft provided as Attachment 2) publicly available, which we recommend by posting on JPA’s website (2 C.C.R. § 18750(a)(3)(A)(i)), and provide a copy of the Notice, including the proposed Code and appendices, to individuals who hold designated positions. You may provide the Notice to these individuals by email.

Step 3: Posting the Notice (in Step 2) starts a 45-day clock. During that time period, members of the public may submit written comments or request a hearing. Comments and hearings are rare in this context. The Board may adopt the final version of the amended Code after this 45-day period closes.

Step 4: The JPA should adopt the final version of the amended Code at its regular meeting scheduled for June 6, 2024. If JPA receives written comments, the Board should consider such input at the meeting. Revisions to the Code based on the public’s input are permissible, but not required. The Board may adopt the final version of the amended Code by motion; no resolution is required.

Step 5: After the Board adopts the amended Code, the following are sent to the County of San Diego:

(a) A copy of the proposed amended Code, including a strike out/underline comparison with the JPA’s current code (also included in Attachment 1-A);

(b) A declaration that the proposed amended Code lists each position within JPA that must file a Form 700 and that JPA followed the procedures required for amending the proposed Code (draft to be prepared);

¹ The FPPC offers an additional step as an option for an agency to submit its proposed amended Code for “preliminary” review and comment by FPPC staff prior to consideration by the agency’s Board. We do not believe this step is necessary here because Metro’s Code is not changing substantively, but rather, we are simply updating the designated positions and corresponding disclosure obligations.

(c) A copy of the Notice of Intention to Amend a Conflict of Interest Code (draft provided as Attachment 2);

(d) A description of changes to the Code from the JPA's current code (draft to be prepared); and,

(e) If necessary, a summary of any changes to the Code as a result of input from the public hearing or written comments.

The County may request additional documents and information, such as explanations for designations and disclosure responsibilities, a summary of written comments received by JPA or copies of the comments, an organizational chart, job descriptions, or recent minutes of JPA's Board meetings. The amended Code will become effective 30 days after the County gives its final approval.

If you have any questions about this process, please feel free to contact me.

Staff Recommendation

1. Staff recommends the Finance Committee recommend the JPA Board of Directors approve Resolution 2024-01, a Resolution of the Board of Directors of the Metro Wastewater Joint Powers Authority Adopting an Amended Conflict of Interest Code Pursuant to the Political Reform Act of 1974;
2. Discuss or take other action as appropriate.

Re: Metro Wastewater JPA Treasurer's Report for Year-End 2023

Attachment: Metro Wastewater JPA Treasurer's Report for Year-End 2023

The Metro Wastewater JPA Treasurer's Report for Year-End 2023 is attached to this staff report. Please note that the Treasurer's report was delayed due to the required participation and staff support of JPA's External Auditors in completing the FY20-21 Audit report, which was adopted by the Board of Directors at their February 2024 meeting.

This Treasurer's report is unaudited but will be included in the current FY22-23 JPA Audit, scheduled to be completed in April 2024. Below are several remarks regarding the Year-End Treasurer's report.

- **Financial Operations:** Despite completing the year within the overall budgeted amount, the JPA faces a challenge with a remaining cash balance over the required Operations Reserve of only \$36,633. Consequently, there were limited funds available to initiate funding for the Contingency Reserve, as approved during the FY2024 budget process by the Board of Directors. Discussion on formal funding for the Contingency Reserve is scheduled for the FY2025 budget process, given the stagnant cash position over the past year.
- **Consultant Activity:** The JPA experienced a demanding year for its financial and engineering consultants, primarily due to ongoing Second Amended Restated Agreement (SARA) negotiations with the City of San Diego and the Metro billing methodology update project (FAB system of charges). Despite two JPA consultants, The Keze Group and Dexter Wilson Engineering, showing a negative balance at FY 2023 year-end, it's important to note that these financial statements do not reflect approved change orders for these consultants which were approved in May 2023. Both firms operated within their amended approved contract limits for FY 2023.
- **Board Secretary Duties:** Commencing in the last quarter of FY 2023, the Board Secretary's responsibilities expanded beyond their routine agenda and meeting

scope of work. Consequently, a thorough review and update of the Board Secretary's scope of work is slated for the FY2025 budget process as part of the JPA's reorganization efforts to address these changes in role and responsibilities.

- **Board of Directors Expenses:** FY 2023 saw an increase in Board of Directors Per Diem expenses, primarily due to the addition of Pure Water (SARA) AdHoc meetings that were not anticipated at budget time.
- **Legal Expenses:** Legal expenses for the JPA would have remained under budget were it not for unforeseen work associated with the Metro system sewer spill events. It's worth noting that this budget was set prior to the assumption of duties by our current general counsel.\
- **Website Updates:** A decision was made during the fiscal year not to pursue substantial updates or changes to the JPA's website, leading to the non-initiation of the website architecture contract. Instead, the JPA's current vendor, Granicus, with whom a four-year contract is in place, provided the requested services at no charge. However, an FY2024 bill from Granicus was received and paid in FY2023, creating an apparent overage in their contract. This payment was a pre-payment for their FY2024 hosting services, not indicative of a contractual breach.

Re: Metro Wastewater JPA Treasurer's Report for Mid-Year FY 2024

Attachment: Metro Wastewater JPA Treasurer's Report for Mid-Year FY 2024

The Metro Wastewater JPA Treasurer's Report for Mid-Year 2024 is attached to this staff report. This Treasurer's report is unaudited as it covers the financial operations of the JPA up to December 31, 2023, within the current fiscal year. Below are several remarks regarding the Mid-Year's Treasurer's report.

- **Financial Operations Update:** The financial operations of the JPA generally track with their designated budgets, with major consultants either slightly under budget or closely aligned. The majority of the items that are tracking higher than their budgeted amounts were discussed in the FY 2023 Year-End Treasurer's Report such as the Board Secretary and Board Member's Expenses. These aspects will be thoroughly reviewed during the FY2025 budget assessment.
- **Audit Expenditures:** The current auditor's contract was approved by the Board and implemented in August 2023, subsequent to the approval of the FY 2024 JPA budget in June 2023. The budgeted amount of \$12,000 does not reflect the actual approved audit contract amount of \$45,000, which encompasses audits for FY 2020-2021 and FY 2022-2023, aimed at bringing the JPA up to date with its audits. The Mid-Year expenditure of \$20,800 remains within the confines of the contract terms, considering the completion of the FY2020-2021 audit.
- **Cash Position:** Despite the Balance Sheet indicating excess cash of \$397,360 beyond the required Operations Reserve, it's anticipated that this entire amount will likely be necessary to cover operating expenses for the latter half of FY 2024. The Year-End Treasurer's report for FY 2023 highlights that deliberations on funding the JPA's Contingency Reserve will be undertaken during the FY2025 budget evaluation.

Emergency Declaration Memorandum

- As a result of the January 22nd storm event, the City of San Diego initiated an emergency declaration for Pump Station 2 Repairs
- This emergency declaration will allow the timely completion of critical repairs to ensure the reliability of this pump station in future storm events.

The City of San Diego
MEMORANDUM

DATE: February 26, 2024
TO: Rania Amen, Director, Engineering & Capital Projects Department
FROM: Lisa M. Celaya, Executive Assistant Director, Public Utilities Department
SUBJECT: Emergency Declaration for Pump Station 2 Repair

This memorandum is being sent to request expedited Public Works contracting to conduct emergency repairs to Pump Station 2. Pump Station 2 is located at 4077 North Harbor Drive and is the City's largest and most critical wastewater pump station. Pump Station 2 conveys all flow to Point Loma Wastewater Treatment Plant, which treats the vast majority of wastewater generated in San Diego as well as neighboring cities and unincorporated communities. Emergency repairs are needed to maintain services essential to public health, safety, and welfare.

In order to provide effective wastewater conveyance and avoid sewer spills, especially given the unprecedented storms that are now occurring due to climate change, Pump Station 2 must have all 8 pumps and all screens and sluice gates in working order. Any lack of fully functional equipment in these categories will render the station unable to operate at full capacity and unable to convey anticipated future storm flows, resulting in sewer spills. Should Pump Station 2 not be able to process all incoming flow of the upcoming storm events, large wastewater discharges into the San Diego River, San Diego Bay, and into San Diego communities will inevitably occur.

Public Utilities Department management, engineering, and maintenance staff from the Wastewater Collection Division have identified the following list of urgent repairs which must be done at Pump Station 2 to ensure the station is able to convey storm flows.

1. Fabricate and install one replacement mechanical traveling screen.
 - a. Existing are Parkson traveling mechanical screens.
 - b. The in-service screens are damaged and are allowing debris ("rags") to clog the pumps, rendering them inoperable.
2. Remove and overhaul two mechanical traveling screens.
 - a. Overhaul two of five existing Parkson traveling mechanical screens.
 - b. The in-service screens are damaged and are allowing debris ("rags") to clog the pumps, rendering them inoperable.
3. Replace bypass channel screen ("trash rack")
 - a. The bypass channel screen has failed and has large holes in it.
 - b. The holes are letting large debris through. The debris collides with the pumps and is damaging them, as evidenced in recent storms.
4. Replace liquid rheostat cooling water recirculation lines.
 - a. Cooling water lines from the liquid rheostats to the cooling tower are clogged and reducing rheostat efficiency/pump speed

PS 2 Emergency Declaration Scope of Work

1. Mechanical Traveling Screens
2. Bypass Channel Bar Screen
3. Cone Valve 7 and Discharge valve (“knife gate”) 7
4. Bracket for Sluice Gate 1
5. Liquid Rheostat

PS 2 Emergency Declaration Timeline & Funding

Timeline: March 18th, 2024

- Site walk and scope of work overview with potential Contractor (TC Inc.)

Estimated Cost: \$2.5 million

Emergency Repair Items

1. Mechanical Traveling Screen

- a) Fabricate and install one replacement mechanical traveling screen (Parkson).
- b) Remove and overhaul two of five existing Parkson traveling mechanical screens.

Emergency Repair Items

2. Bypass Channel Bar Screen

- a) Remove and replace with new channel bar screen.

Emergency Repair Items

3. Cone Valve 7 and Discharge Gate Valve 7

- a) The cone valve and discharge gate valve on Pump 7 failed during the latest storms.
- b) Replace or overhaul cone valve and discharge gate valve 7.

Emergency Repair Items

4. Bracket for Sluice Gate 1

- a) Existing bracket is badly deteriorated and is at risk of immediate failure, which would render the sluice gate inoperable.

Executive Director's Report

Monthly Executive Director's Report March 2024

During the month of March, the Executive Director and Team were engaged in several key initiatives:

1. **Completion of JPA FY 2023 year-end and FY 2024 mid-year JPA Treasurer's Report:** This month's energies focused on bringing all the JPA's financial statements up to date. With a brief pause between the FY 2020-2021 and FY 2022-23 audits the Treasurer was able to prepare year-end and mid-year financial statements for the JPA (Treasurer's Reports). These have been reviewed and approved by Metro TAC and the Finance Committee and are included in the JPA/Commission agenda.
2. **Continuation of FY2025 JPA Budget Planning:** The Executive Director and Treasurer prepared a preliminary budget for the JPA, encompassing various new programs and potential adjustments to contracts. These additions include a strategic planning initiative, allocation for the contingency reserve, and potential modifications to the contracts of the Treasurer and Administrative Assistant. The Finance Committee met to examine the preliminary budget, offering guidance not only on the new programs but also suggesting alterations in other areas. The Finance Committee is scheduled to meet again in April for a secondary assessment of the preliminary budget, preceding its presentation to the Metro JPA/Commission during their May meeting.
3. **Second Amended and Restated Agreement (SARA) Negotiations Continue:** The SARA Negotiations Team met to discuss changes to some of the SARA language as we move towards finalization of the draft document.
4. **Continuation of Financial Implementation Group (FIG) Meetings:** Regular bi-weekly meetings of the FIG have been ongoing, ensuring progress on SARA and Metro financial matters.
5. **Continuation of FAB Workgroup Meetings:** Ongoing bi-weekly meetings with the City of San Diego project team and Stantec consultants have been maintained to advance the Functional Allocated Billing project. An additional meeting was held to start preparation of the April TAC presentation.

Upcoming Month Preview:

1. **Preparation of Meeting Schedules:** Members of Metro TAC requested that a schedule of topics that will be presented at upcoming meetings on the SARA document and the FAB system of charges be prepared. This will be included in the April TAC agenda packet and will be prepared for the JPA/Commission meetings as well.
2. **Potential Transition to Hybrid Meetings for Metro TAC:** As we collectively progress with the development of the draft SARA agreement, our aim is to facilitate efficient and convenient meetings and foster effective communications within the Metro JPA/Commission and Metro TAC. Our principal objective is to ensure maximal participation in all meetings, regardless of the format, enabling attendees to engage with presentations and pose questions as we delve into the various components of the draft SARA over the forthcoming months.

Currently TAC meetings are held monthly via Zoom. While it's evident that Zoom meetings facilitate maximum attendance, we've received requests to conduct in-person meetings to enhance discussions on these crucial matters. Conversely, several members of the TAC have expressed their preference for maintaining the Zoom format due to scheduling constraints, despite their desire to participate actively.

One potential solution is to introduce hybrid meetings encompassing both on-site and Zoom elements. However, this is contingent upon the City of San Diego's ability to furnish suitable facilities and trained personnel to facilitate such meetings. While PUD staff is diligently working towards this goal, it remains a work in progress. Additionally, the current room designated for hybrid meetings has a capacity limit of 30 attendees. A poll was sent out in March to determine whether TAC members prefer in-person or zoom form of meetings. It is anticipated that the April TAC meeting will be held either in person or through some form of hybrid meeting.

3. **Expansion of Monthly Executive Director's Report:**
 - *Engineering Updates:* Updates on engineering matters will be incorporated.
